ACKNOWLEDGEMENTS

The research work which is undertaken here tries to study programme efforts and contraceptive use in Madhya Pradesh. The data has been used in the study include both secondary and primary data. The RCHRHS data of Madhya Pradesh during 1998-99 as well as primary field survey data from 45 villages covering 3 districts of Madhya Pradesh are being utilized in the research study. I take this opportunity of placing on record my sincere thanks and gratitude to all those who have helped my research work.

I am grateful to the Population Research Centre (PRC), Sagar for giving me an opportunity to undertake the dissertation work. I am also deeply indebted to the International Institute for Population Sciences (IIPS), Mumbai and Ministry of Health and Family Welfare (MOHFW), New-Delhi for providing RCHRHS data to the PRC, Sagar. I express my sincere thanks to Prof. R. S. Dube, ex- Research
Director of Population Research Centre, Sagar for his suggestions, encouragement, and advice to complete my thesis work.

I thank Dr. (Mrs.) Jyoti Gangele, Research Investigator, PRC, Sagar for preparation of the maps which are presented in this thesis.

My wife Dr. (Mrs.) Devamoni Dey, Research officer, Population Research Centre, Baroda who painstakingly assisted in editing of the draft report deserves special thanks. Without her continuous encouragement this thesis would have not been possible. I also appreciate the cooperation of my sons, Debarttasharan and Swastisharan during years of completion of the study.

Ultimately, it is the Grace of the Almighty that made it possible for me to complete this work.

Sagar
