ACKNOWLEDGEMENTS

"In the name of God, the Most Gracious, the Most Merciful".

Foremost, I would like to express my sincere gratitude to my supervisor Prof. B.S.Vishwanath, Department of Studies in Biochemistry, University of Mysore, who endeavored my aspiration to carry out research in my first approach and for his continuous support of my PhD study and research, for his patience, motivation, and immense knowledge. Providing me with an excellent atmosphere for doing research. I could not have imagined having a better mentor for my PhD study.

I would like to thank my advisor, Dr. Hassan Malekinejad, associate professor, Department of Pharmacology and Toxicology, Faculty of Veterinary Medicine, Urmia University for his ongoing support throughout my studies. His continuous diligence and patience over these years are genuinely appreciated. He has also granted me the opportunity to broaden my career in the academic field to which I extend my sincere gratitude. With his motivation, along with methodical and comprehensive planning had ensured a systematic, assistance-assured and solution oriented research experience to which I have gratefully gained knowledge.

I am in lack of words to express my gratitude to Dr. Nataraju Angaswamy, my senior, who helped me during thesis writing for his valuable scientific suggestions, help and critical evaluation.

I am also very grateful to Dr. Amir. Amniattalab, Department of Pathology, Islamic Azad University, Urmia, Iran for his scientific advice and help for our histopathological analysis.

I am thankful to Mr Tabatabai, Dr. A.Rezaei for their help in Department of Pharmacology and Toxicology, Faculty of Veterinary Medicine, Urmia University, Iran.

I am grateful to the chairman and all of my professors during my Msc in DOS of Biochemistry, Mysore University; Prof. Cletus JM D Souza, Prof. M. Karuna Kumar, Prof. K. Kemparaju, Dr. K. Gopal Marathe and Dr. K.S. Girish which I became interested in learning Biochemistry leads to my higher education.
I thank my colleague and seniors: Mr. Yarismamy M, Dr. Siddhesha J M, Mr. Joshi V, Mr. Nanjaraj.urs, Mr. Suvelish K, Mrs. Sheeja S.Rajan, Ms. Savitha, and Dr. Shaista for their timely help during my work.

However these four years is an invaluable journey for me, not only because it’s my first time being in India, experiencing new culture but because of finding new and good friends, who were kind and friend with me, during this period. I would like to express my sincere appreciation to Dr. Kumar, Dr. Devaraj, Mrs. Mamatha, Ms. Sowmya, Mr. Austin, Ms. Shokoufeh, Ms. Mahan, Mr. Sebastian, Mr Goutham, Mr. Hemshakar, Mr. Pardsad, Mr. Venkat, Mr. Lakshmikanth, Mr. Gajanan, Mrs. Manjula, Ms Sunitha, Ms. Tushara, Ms. Sheilaja, Ms. Mahsa and Mrs shirin here.

I also thank the office staff of the department Mr. Bettegowda, Mr. Suresh and Mr. Aziz for their help and wishes.

I am so grateful to my uncle Dr. Ahmad Aghazadeh and his family whom was with me in Mysore during these years, without his timely advice; probably I would not have had the opportunity to achieve this highest degree.

Last but not least, thanks should go to my lovely Mum who is my light, my driving force and my family especially to my uncles (Dr. Javad Aghazadeh, Dr. Ali Aghazadeh) and their family and my brother and his wife. Their voice over the telephone every week was my motivation to work hard and perform well. Their understanding, support and love encourage me to face all the challenges in my study and in my daily life. This thesis, the most important fruit of my three years work, is dedicated to them as a gift of love and thanks.

Finally I thank Department of Studies in Biochemistry University of Mysore and Department of Pharmacology and Toxicology, Veterinary Medicine Urmia University for giving me this opportunity to do my research.
