It would not have been possible to do research work and to write my doctoral thesis without the help and support of my god Saibaba. I don’t have words to express my deep sense of gratitude towards my God Sai Baba for his blessings. I have only option to make him happy is that following his words. I want to be a dust particle under his feet forever.

At the outset, I would like to thank my supervisor Dr. V. Rama Mohan Gupta, Professor&Principal, Pulla Reddy Institute of Pharmacy, Medak for his quick evaluation and decision on my Ph.D application. In fact, it was a big surprise to receive his positive reply within a few minutes after my request for the PhD position, grateful for his confidence and trust on me. It is my privilege to have his encouragement and galvanizing my spirit in accomplishing this project successfully. His valuable and precious suggestions, criticisms have been guiding force throughout the process of my work. The sincerity, righteousness and virtuousness which he has inculcated in me will take me a long way in my life. During this period, I had a great freedom to plan and execute my ideas in research without any pressure. This made me to identify my own strength and drawbacks and particularly boosted my self-confidence. It is a great pleasure working under his supervision and I would ever be indebted to him for the unstinted support exleished to me during my Ph.D.

I will forever be thankful to my co-guide Dr. N. Devanna, Director, OTRI-JNTUA, Ananthapuramu for his timely help and sincere support during my research period. He was and remains my best role model as a scientist, mentor,
and teacher. His helping hand is a source in crossing the barriers associated in completion of synopsis, thesis, etc. I take this opportunity to sincerely acknowledge Mr. CH. Sathi Reddy, Chairman, Pulla Reddy Institute of Pharmacy, Medak and Mr. Aditya, Director, Pulla Reddy Institute of Pharmacy, Medak for providing facilities to carry out my research work at Pulla Reddy Institute of Pharmacy which buttressed me to perform my research work comfortably.

I would like to pay high regards to my Mother, Father and Brother for their sincere encouragement and inspiration throughout my research work and lifting me uphill this phase of life. I owe everything to them. Words fail me to express my appreciation to my mother and father for their support, generous care. Simple thanks don’t seem sufficient but it is said with appreciation and respect to my brother who has been instrumental for the good shape of my thesis because of his help and suggestions in formatting the entire thesis. During the inevitable ups and downs of conducting my research he often reminded me life’s true priorities by what could be the influence of a loving God Sai baba. Special thanks to my bhabi, Mrs. Siva sankari, who gave constant encouragement, moral support and always strengthened my morale by standing by me in all situations. A journey is easier when you travel together. My wife, Mrs. Smita, always stood beside me during the happy and hard moments to push me and motivate me. I am much indebted to my wife for her love, care, support and creating a pleasant atmosphere at home during my entire research period.

Besides this, my sincere thanks also goes to several people who have knowingly and unknowingly helped me in the successful completion of this project.
