ACKNOWLEDGEMENTS

First and foremost I acknowledge the Divine Blessings for the completion of this work.

I wish to record my cordial gratitude to Dr B V Somashekaraiah, Professor, Department of Chemistry, St Joseph’s College, Bangalore, for his invaluable supervision of work and guidance during the tenure of the work. I would like to express my gratitude to Prof. Shyamala Shivaram, Dr Naveen Chandra and Dr Saraswathi Raman D N for their selfless help rendered during the research work.

I am indebted to Principal of St Joseph’s College, Bangalore for permitting me to work and to use the Institutional facilities for the present work. I also like to express my sincere gratitude to the doctoral committee member Dr Krupakara V (Adarsha Institute of Technology), Dr Nagaraju N, HOD, Dr Michael Rajamathi, Co-ordinator, PG section, Dr Shobha, Associate Professor, Chemistry Dept and Dr Wilson, Associate Professor, Botany Dept, St Joseph’s College, Bangalore for their kind help and technical support. I express my sincere thanks to Prof A S Chandramouli, Principal, Surana College and Sri Yogesh, NIMHANS for their constant encouragement and valuable help. I am also thankful to Sri Panchakshari, Laboratory staff of Dept of Chemistry, St.Joseph’s College, for his assistance. My special thanks to Hareesh, Sahana, Rekha, Nithyakala, Sindhu and to all other research scholars for their support and assistance for the successful completion of this work.

The moral support, encouragement and love of my parents are unmatchable and the entire work is dedicated to them. I acknowledge and offer my heartfelt gratitude to my husband, brother and especially to my son, Avanish for their constant co-operation, encouragement and adjustment shown throughout my research work. I also thank my aunt who always prayed for my well being and would like to acknowledge all the people who have wished and influenced me to do good work.

S G Jyothi
