4.11 Parity plot between the experimental and predicted values of process parameters for A. awamori MTCC-6652 utilizing rice bran

4.12 (a-j) 3D plots showing the effects of process parameters on amylase activity by A. awamori utilizing rice bran

4.13 Parity plot between the experimental and predicted values of important variables for A. awamori MTCC-6652 utilizing wheat bran

4.14 Pareto chart showing the effect of media components on amylase production using A. awamori MTCC-6652 utilizing wheat bran

4.15 Parity plot between the experimental and predicted values of important variables for A. awamori MTCC-6652 utilizing wheat bran

4.16 (a-j) 3D plots showing the effects of significant variables on amylase activity by A. awamori utilizing wheat bran

4.17 Parity plot between the experimental and predicted values of process parameters for A. awamori MTCC-6652 utilizing wheat bran

4.18 (a-j) 3D plots showing the effects of process parameters on amylase activity by A. awamori utilizing wheat bran

4.19 Parity plot between the experimental and predicted values of important variables for A. oryzae MTCC-8624 utilizing cassava stalk

4.20 Pareto chart showing the effect of media components on amylase production using A. oryzae MTCC-8624 utilizing cassava stalk

4.21 Parity plot between the experimental and predicted values of important variables for A. oryzae MTCC-8624 utilizing cassava stalk

4.22 (a-j) 3D plots showing the effects of significant variables on amylase activity by A. oryzae utilizing cassava stalk

4.23 Parity plot between the experimental and predicted values of process parameters for A. oryzae MTCC-8624 utilizing cassava stalk

4.24 (a-j) 3D plots showing the effects of process parameters on amylase activity by A. oryzae utilizing cassava stalk
4.25 Parity plot between the experimental and predicted values of important variables for *A. oryzae* MTCC-8624 utilizing rice bran

4.26 Pareto chart showing the effect of media components on amylase production using *A. oryzae* MTCC-8624 utilizing rice bran

4.27 Parity plot between the experimental and predicted values of important variables for *A. oryzae* MTCC-8624 utilizing rice bran

4.28 (a-j) 3D plots showing the effects of significant variables on amylase activity by *A. oryzae* utilizing rice bran

4.29 Parity plot between the experimental and predicted values of process parameters for *A. oryzae* MTCC-8624 utilizing rice bran

4.30 (a-j) 3D plots showing the effects of process parameters on amylase activity by *A. oryzae* utilizing rice bran

4.31 Parity plot between the experimental and predicted values of important variables for *A. oryzae* MTCC-8624 utilizing wheat bran

4.32 Pareto chart showing the effect of media components on amylase production using *A. oryzae* MTCC-8624 utilizing wheat bran

4.33 Parity plot between the experimental and predicted values of important variables for *A. oryzae* MTCC-8624 utilizing wheat bran

4.34 (a-j) 3D plots showing the effects of significant variables on amylase activity by *A. oryzae* utilizing wheat bran

4.35 Parity plot between the experimental and predicted values of process parameters for *A. oryzae* MTCC-8624 utilizing wheat bran

4.36 (a-j) 3D plots showing the effects of process parameters on amylase activity by *A. oryzae* utilizing wheat bran

4.37 Parity plot between the experimental and predicted values of important variables for *A. niger* MTCC-282 utilizing cassava stalk
4.38 Pareto chart showing the effect of media components on amylase production using *A. niger* MTCC-282 utilizing cassava stalk

4.39 Parity plot between the experimental and predicted values of important variables for *A. niger* MTCC-282 utilizing cassava stalk

4.40 (a-j) 3D plots showing the effects of significant variables on amylase activity by *A. niger* utilizing cassava stalk

4.41 Parity plot between the experimental and predicted values of process parameters for *A. niger* MTCC-282 utilizing cassava stalk

4.42 (a-j) 3D plots showing the effects of process parameters on amylase activity by *A. niger* utilizing cassava stalk

4.43 Parity plot between the experimental and predicted values of important variables for *A. niger* MTCC-282 utilizing rice bran

4.44 Pareto chart showing the effect of media components on amylase production using *A. niger* MTCC-282 utilizing rice bran

4.45 Parity plot between the experimental and predicted values of important variables for *A. niger* MTCC-282 utilizing rice bran

4.46 (a-j) 3D plots showing the effects of significant variables on amylase activity by *A. niger* utilizing rice bran

4.47 Parity plot between the experimental and predicted values of process parameters for *A. niger* MTCC-282 utilizing rice bran

4.48 (a-j) 3D plots showing the effects of process parameters on amylase activity by *A. niger* utilizing rice bran

4.49 Parity plot between the experimental and predicted values of important variables for *A. niger* MTCC-282 utilizing wheat bran

4.50 Pareto chart showing the effect of media components on amylase production using *A. niger* MTCC-282 utilizing wheat bran

4.51 Parity plot between the experimental and predicted values of important variables for *A. niger* MTCC-282 utilizing wheat bran

4.52(a-j) 3D plots showing the effects of significant variables on amylase activity by *A. niger* utilizing wheat bran
4.53 Parity plot between the experimental and predicted values of process parameters for *A. niger* MTCC-282 utilizing wheat bran

4.54(a-j) 3D plots showing the effects of process parameters on amylase activity by *A. niger* utilizing wheat bran

5.1 Plot between the experimental and predicted values of substrate concentrations for *A. awamori* utilizing wheat bran

5.2 Plot between the experimental and predicted values of substrate concentrations for *A. awamori* utilizing rice bran

5.3 Plot between the experimental and predicted values of substrate concentrations for *A. awamori* utilizing cassava stalk

5.4 Plot between the experimental and predicted values of substrate concentrations for *A. oryzae* utilizing wheat bran

5.5 Plot between the experimental and predicted values of substrate concentrations for *A. oryzae* utilizing rice bran

5.6 Plot between the experimental and predicted values of substrate concentrations for *A. oryzae* utilizing cassava stalk

5.7 Plot between the experimental and predicted values of substrate concentrations for *A. niger* utilizing wheat bran

5.8 Plot between the experimental and predicted values of substrate concentrations for *A. niger* utilizing rice bran

5.9 Plot between the experimental and predicted values of substrate concentrations for *A. niger* utilizing cassava stalk
