ACKNOWLEDGEMENT

I express my deep sense of gratitude to my mentor Dr. R. Aravindan, Assistant Professor, Department of Chemical Engineering, Annamalai University, for suggesting the problem, and for the encouragement and moral support in each and every step of my research work. I consider it as a great opportunity and honor to work under him.

I am very much thankful to Dr. T. Viruthagiri, Professor and Head, Department of Chemical Engineering, Annamalai University, for providing the facilities and for constant encouragement and support.

I express my profound gratitude to all the authorities of Annamalai University for providing me the opportunity and facilities to carry out my research work.

I am highly indebted to Dr. S. Subhagar, Dr. S. Arrivukkarasan and Dr. M.G. Devanesan Assistant Professor, Department of Chemical Engineering, Annamalai University, for their involvement and support for the research work and in the preparation of thesis.

I express my sincere thanks to my colleagues Mr. S. Bakkiyaraj, Mr. Mohammed Ilyas Basha, Mr. Gokul Kumar, Mr. Phani kumar, Dr. Neelakandan and Mr. Thiruvelson for their timely help.

I am very much thankful to Mr. Arokiaraj, Mr. Umar Basha and Mr. Nagaiyan in the Chemical Engineering Department for their help during the course of research work.

There are many others, unnamed here offered their help either knowingly or unknowingly for the successful execution of my research work. I acknowledge each and everyone with deep gratitude.

I also thank my father (Late) Syed Malik, who always encourages me to carry out higher studies. My sincere thanks to my mother, Mrs. Syed Salema, my brother Syed Zaheer Basha, for their sacrifice, patience and support given throughout my research work.

My special thanks to Almighty Allah, without his blessing this thesis would not have seen the light of the day.

Mahin Basha Syed
