Acknowledgment

I convey my deep sense of gratitude to my supervisor Prof. Satyendra Mishra for giving his constant guidance and his valuable advices that has enabled me to complete my research work successfully. I consider myself fortunate for having a chance of working with a person like him, who is a rare blend of many unique qualities.

A big thanks goes to my supervisor Dr. R. P. Singh for his guidance and support throughout the entire span of my research. His intellectual inputs, insightful comments and commitment to good science made me learn a lot and transformed me from a fledgling graduate student into a young researcher.

I would like to thank Prof. (Dr.) Chang-Sik Ha for giving me the opportunity to work in his laboratory on the highly interesting research topic i.e. biomedical applications of bionanocomposites and mesoporous materials. His commitment, dedication and leadership qualities are the attributes that I wish to take forward with me along with the chemistry that I learnt with him. Although this eulogy is insufficient, my sincere regards and reverence are for him, forever.

I am extremely grateful to Prof. (Dr). Ram Prakash Singh for the stimulating scientific discussions and suggestions. Whenever I approached him with some problems he was always ready to help.

I convey my deep sense of gratitude to the Vice-Chancellor, North Maharashtra University, Jalgaon and the Director, National Chemical Laboratory, Pune, for providing the infrastructure and facilities for my research work.

I would like to give a special tribute to my wife “Jyoti” and my son ‘Yuvkrit’ from the bottom of my heart for their sacrifice, patience and being so nice with me at each and every difficult during the entire Ph.D tenure.

I am deeply and thoroughly indebted to my family members for their sacrifice, patience, and kind support throughout my upbringing. I am deeply indebted to my father (Mr. Rajendra Rana), grandfather (Mr. Jaisingh Rana) and jeeja ji (Mr. Arvind Kumar and Mr. Kuldeep Singh) for their values in life that I have had the good fortune to see, experience and learn, and wish to specifically thank them for being instrumental in shaping my career in education.

I owe deeply to ever-trustful friends for always being with me. I sincerely thank them for all their affection and help. Specifically, I thank Rajeshwari, Omkar, Vivek ji and Asheesh for the discussions and suggestions (both scientific and nonscientific) in shaping my career as professionally and personally and love to Sonika, Saurabh Shweta, Sachin Ravi (My brother).
and Gaurav who came as friends and became more than friends for the life. Thank you “Doston”, I love you all.

I am at a loss of words while expressing my feeling of gratitude towards my North Maharashtra University friend, Dr. Annirudha Chaterjee and Dr. Nippon Ghosh. They were always there to help me at any time either in Day or in Night. This work would have never accomplished without their kind help and encouragement.

How can I forget my little champs, who were always there with their innocent smile and greedless cutie face, my nieces, Tanu, Mansi, Gungun, Ritika, Pari and nephews Manu, Varneet and Yash.

Last but not least I would like to thank my colleagues! Without their support, cooperation, discussions and timely help, my research work would not have matured enough. So I extend my gratitude to my earlier and present lab-mates Pratheep, Mukesh, Dilip, Sunil, Sangeeta and Rupali. I also express my sincere thanks to my colleagues, Bhan, Anita, Priyanka, Ravi, Nagesh, Ajay, Shamim, Sampa, Abhishek, Upasana, Ketki, Varun, Mandeep, Arun Sir, Jugal, Emaduddin, Manzoor, Malli, Arvind, Asutosh, and all others for maintaining a warm and friendly atmosphere.

(Vijay Kumar Rana)
