ACKNOWLEDGMENT

First and foremost I wish to express my gratitude to my mentor Dr. Rajiv D. Kalraiya for giving me an opportunity to join his research group and introducing me to the field of cancer cell glycobiology. His regular guidance and advice helped me in completing the assigned project. He has also helped me in improving my scientific writing skills.

I am thankful to Dr. Rajiv Sarin (Director, ACTREC), Dr. Surekha M. Zingde (former Dy. Director ACTREC) and Dr. Shubhada V. Chiplunkar (present Dy. Director) for giving me the opportunity to work in this institute and also for providing the entire research infrastructure. I also thank Department of Biotechnology (DBT), for my fellowship and CSIR for founding the project. I would also like to thank Homi Bhabha National Institute (HBNI), Patil Kantaben Kantilal trust for my travel fellowship and Society of Glycobiology for travel award.

I am thankful to all my doctoral committee members, Dr. Surekha M. Zingde, Dr. Robin Mukhopadhyaya, Dr. Rajiv P. Gude (ACTREC) and Dr. Anita Borges (Raheja hospital) for their critical and valuable comments for improving my work and the thesis.

I am thankful to all the staffs of Common instrumentation facility especially Mr. Dandekar, for the solution of any technical problem related to any instruments. I am extremely thankful to the members of flow cytometry facility, Ms. Rekha Gour and Mrs. Shymal Vetale. Besides, scientific help Shymal had help me by suggesting a doctor’s name, with the treatment from him my Dad got rid of his prolonged suffering from recurrent fistula. I would also like to thank members of genomic facility Mr. Naresh and Ms. Shardha. My experiments involves lot of imaging so I would like to thank Ms. Vaishali, an apt for role model, a lady completely dedicated towards her work and highly enthusiastic and also, Tanuja, Jayraj, Mansi for their help in acquisition of microscopy images. I would also like thank to all the members of photography, library, administration and accounts department for their constant help and support. All the members of housekeeping facilities for keeping our lab clean.

I want to express my warmest thank to all Kalraiya lab members including my seniors Nithya and Srikanth for all the support and guidance during initial years of my Ph.D. tenure I was really blessed to have seniors like them. I am thankful to my juniors Akhil and
Manohar who had helped me in my administrative work, while arranging travel fellowship from HBNI, my other juniors Shyam and Poonam for being equally supportive. Manohar you deserve special thanks for your help while performing real time PCR experiments. I would warmly thank my other lab members Sanjay, a very modest and perfectionist person, two pillars of Kalraiya lab- Mr. D. S. Chavan and Mr. A.M. Pawar for their technical help and support, newly added members of Kalraiya lab- Preeti and Hemangi for being equally helpful. I am also thankful to erstwhile members of Kalraiya lab- Archana, Rajeshri for their help and Dr. B.V. Venu Gopala Reddy for initiating this project, all the summer trainees who helped me in my work either directly or indirectly. A Special thanks to Prema Madam and Poonam for their blessings.

I would also like to thank my other seniors in the institute like Meera, Aparna, Pooja, Satyajeet, Amitabha, Bhairav who had helped me in some or other way. I am also thankful to my other juniors from institute like Gaurav, Piyush G., Rajan and Hemant. Special thanks to Lumbini for her delicious cooked foods and financial help whenever I needed. I am really happy to have good, caring and fun loving batch mates- Amit Singh, Amit F., Atul, Manoj, Lalit, Ajit, Poulami, Sapna, Tabish and Pallavi. A Special thanks to Amit Singh for being a helpful and supportive roommate.

Finally, but never the least I would like to thank my parents and my youngest brother Ashish for their support, sacrifice and blessings. I am also thankful to my younger brother Ajit who is staying with me and his presence never let me feel that, I am away from home and also for his help in umpteen ways during my last few years of my Ph.D tenure. I would like to thank ‘GOD’ for giving me courage and energy to think and work with positive attitude.

Thank you all

Amit Ranjan
