LIST OF TABLES

CHAPTER-2

Table 2.1 Key to the species of adult Tribolium

Table 2.2 Effect of temperature and humidity on the larval stage

Table 2.3 Effect of temperature effect on the pupal stage

Table 2.4 Temperature conditions for Tribolium castaneum development

Table 2.5 Cell count index

Table 2.6 Karyometrical analyses

Table 2.7 Relative mobility of esterase bands

CHAPTER-3

Table 3.1 The lc50 and lc99 values of deltamethrin to the successive generations of T. castaneum and their resistance ratio

Table 3.2 Chromosomal abnormalities in different generations of T. castaneum

Table 3.3 Relative mobility of esterase in different generations of T. castaneum

Table 3.4 Susceptibility to deltamethrin of resistant (RR) and susceptible (SS) parents and their F1 progenies of Tribolium castaneum

Table 3.5 Showing different statistical values for resistant (RR) and susceptible (SS) parents and their F1 progenies of Tribolium castaneum

Table 3.6 Doses of deltamethrin used in successive generations of selection of T. castaneum

CHAPTER-4

Table 4.1 Susceptibility to deltamethrin of resistant (RR) and susceptible (SS) parents and their F1 progenies of Tribolium castaneum

Table 4.2 Showing different statistical values for resistant (RR) and susceptible (SS) parents and their F1 progenies of T. castaneum
