**Acknowledgements**

It is a great opportunity for me to convey my heartfelt thanks and gratitude to all those personalities without whose support, encouragement and help I could not have achieved the desired goal of completion of my thesis.

Foremost, I wish to express extreme indebtedness to my supervisor, Prof. Kalyan Sindhu Goswami for his invaluable guidance, precious advice, constructive comments and meaningful discussions throughout my research work. His constant encouragement and valuable suggestions helped me immensely in completing the thesis. Cordial discussions with him about different topics of the thesis at different stage helped me to carry out the works smoothly.

I would like to take this opportunity to express my deep sense of gratitude to Prof. S. Bujarbarua, Director, Centre of Plasma Physics, Sonapur for providing me the fellowship and necessary facilities throughout this work. In addition, his invaluable inspiration, suggestions and concern in every steps of my thesis work are highly acknowledged.

I express my thanks and gratitude to Dr. C. B. Dwivedi, Dr. B. K. Saikia, Dr. S. R. Mohanty, Dr. B. J. Saikia, Dr. M. Kakoty, Dr. M. Chakraborty, and Dr. T. K. Barthakur for their direct and indirect academic support, encouragement, constructive discussions and help during the course of my research work. I especially thank Dr. Monojit Chakraborty from whom I had acquired firsthand knowledge on the vacuum system and diagnostics. Fruitful discussion with him on some problem is highly acknowledged.

Support of Dr. M. Dey, senior administrative office, Centre of Plasma Physics in several occasions is highly acknowledged.

I wish to express my sincere gratitude to Prof. P. K. Kaw, Director, Institute for Plasma Research (IPR), Bhat, Gandhinagar, Gujarat, for his useful suggestions and discussions on one of my research problem. I am also grateful to Prof. Y. C. Saxena of IPR for his useful suggestions regarding some works in the double plasma device. I am also grateful to Mr. P. K. Atrey of IPR for his kind guidance and all-round help during the summer school program organized by IPR in 2003.
I wish to offer my sincere thanks to my seniors and colleague friends, Dr. S. S. Kaushik, Dr. N. K. Neog, Dr. H. Bhuyan, Dr. U. Deka, Dr. K. R. Rajkhowa, P. Bhuyan, M. Sarma, Arindam, Biswajit, Kamal who always stood beside me in any academic and non academic occasions. We also used to share many light moments at several occasions. I would like to extend my heartiest thanks to my friend Arindam, with whom I have carried out most of the experimental works. We are always supportive to each other and his help in several occasions are highly acknowledged.

I should thank my friends Shankar (IASST), Madhurjya (ISC), Pankaj (DU), Satya (IPR) Bhaskar Baruah and Ballav (IIT G) for their constant encouragement and possible help.

I am also thankful to my junior colleagues, Bidyut, Mousumi, Basanti, Nayan, Bharat, Ngangom, Akshay for standing beside me in all the occasions.

I am also grateful to Institute for Plasma Research, Bhat, Gandhinagar, for giving me an opportunity to work in their laboratory during Summer School Program in 2003.

At this juncture, I offer my gratitude to some of respected teachers, Sri. K. Chakraborty, Sri. Y. Das, Late. D. Das and Sri. M. Kalita, who helped me in all possible ways during my student life.

Last, but not the least, I wish to acknowledge my family members and relative for their moral support. My parents always inspired me for higher education and insisted me to carry out this type of works. Their moral support and encouragement are always with me in every steps of my life. My sister, Sangeeta also co-operated me in different possible ways. It is a great moment to offer a tribute to my abu late Charu Devi, who left for heaven few months back before the completion of my work. At this juncture I would like to express my sincere gratitude to my ata Sri Tarini Prasad Sarma, who provided me moral education through stories in the childhood. I was also able to gain some knowledge...
