ACKNOWLEDGEMENTS

The satisfaction and euphoria that accompany the successful completion of my research would be incomplete unless I mention the names of people who made it possible and whose guidance and encouragement served as a beacon light and crowned my efforts with success. It gives me an immense pleasure to acknowledge and to express my deepest gratitude to all who have helped me throughout my research.

I would like to express my gratitude to my respected Supervisor Dr. S. Varadarajan, Professor, Sri Venkateswara University, Tirupati and to my Co-Supervisor Dr. M. N. Giriprasad, Professor, Jawaharlal Nehru Technological University Anantapur, Anantapuramu for their generous guidance, encouragement, direction, unfailing patience and support in completing this thesis. They encouraged and helped me in understanding the subject, without which I would not be able to finish this thesis.

I would also like to extend my special thanks to my parents, family members and friends who helped me directly or indirectly in completing the thesis.

Above all, I wish to thank Director and Staff of Research and Development Cell, the faculty members of ECE Dept., JNTUA, Anantapuramu for providing the resources to carry out the research work.

My sincere acknowledgements to Dr. N. Kingsbury (Cambridge University) and Prof. Selesnick (Polytechnic University, NY, USA), and Ioana Adam for their useful suggestions on complex wavelets transforms, and answering to my queries.

D. Srinivasulu Reddy.
