Acknowledgements

First and foremost, I praise God, THE SUPREME BEING for bestowing upon me the capability to perform my duties. This thesis appears in its current form due to the assistance and guidance of several people. I would like to extend my sincere thanks to all of them.

My deepest gratitude is to my advisor, Prof. D. D. Somashekar, Chairman, Department of Studies in Mathematics, University of Mysore, Mysore. I have been fortunate to have an advisor who gave me the freedom to explore on my own, and at the same time the guidance to recover when my steps faltered. I am grateful to him for sparing his valuable time for long discussions that helped me to sort out the technical details of my work. His insightful comments and constructive criticisms at different stages of my research were thought-provoking and helped me to be on the right direction throughout my research work.

I would like to express my thanks to the University Grants Commission, New Delhi, for awarding Teacher Fellowship under Faculty Improvement Programme of UGC XI Plan for a period of three years from 12-08-2010 (Teacher fellowship No.KAMY074-TF01 dated 22.04.2010). The fellowship was crucial for the successful completion of my research work.

I am thankful to The Principal, Government First Grade College, Kuvempunagar, Mysore, and my colleagues of parent institution for their support and encouragement during the entire period of my research work.
I take this opportunity to express my sincere thanks to Prof. D. S. Nandappa, Prof. H. N. Ramaswamy, Prof. C. Adiga, Prof. R. Rangarajan, Dr. K. R. Vasuki, and Dr. Veena Mathad for their cooperation during my stay in the Department.

My special thanks go to my fellow research scholars for their helping hands during all these years of my research work.

My indebtedness goes deep for the support and blessings of my parents. I want to express my gratitude and deepest appreciation to my lovely daughters, Indira and Pragna for their great patience and understandings. I express my heartfelt thanks to my wife, Vani, without whose supports and encouragements, I could not have finished this work. My gratitude also goes for each one who has directly or indirectly helped me during this tenure.
