Acknowledgements

Joy of completion is to look over the journey and remember the people who shared this long path, whose help and support were indispensible for its success.

First and foremost I express my profound sense of gratitude to my teacher and guide Dr. C Ranganathaiah, Professor of Physics, Department of studies in Physics, University of Mysore, who provided me the opportunity to carry out this research work under his proficient supervision. His vision, support and guidance have motivated me throughout this endeavour. The extensive discussion and his valuable criticism and advice were instrumental in my progress. I will always remain grateful to him.

I am grateful to the University Grants Commission (UGC) of India for awarding me the Research Fellowship in Sciences for Meritorious Students (RFSMS), which provided the financial stability and help, to concentrate on my research work efficiently.

I sincerely thank Prof. T.K. Umesh, Prof. L. Paramesh, Prof. C Ranganathaiah and Prof. R. Somashekar the successive chairpersons of our department and Prof D. Revannasiddaiah Co-ordinator DRS-SAP/RFSMS, for their help and encouragement. I am grateful to University of Mysore, Mysore, for providing me facilities to carry out research work in the Department of Studies in Physics, Manasagangotri, Mysore.

I thank all the teaching and non-teaching staff of the Department of Studies in Physics, University of Mysore, Mysore for their support.

My experience working initially with Dr. M.N. Chandrashekara, Dr. J.M. Raj and Dr. Abdullah Ali Mohammed Altaweel (from Yemen) and later with Ms. Meghala D. and Mr. Tenzin Pasang was pleasant and productive. Sharing lab with Dr. Sampathkumaran, Joint director, Material Technology Division, CPRI, Bengaluru, was a privilege. All the group members have rendered
whole hearted support for my research work and their company gave me lot of relief in my stressed research life.

I want to acknowledge Prof. N.M. Renukappa, Department of Electronics and Communication Engineering, Sri Jayachamarajendra College of Engineering, Mysore, for the help he provided in making PP/HDPE blends.

I am very grateful to Mr. Prabhava Sai Narayan, former Facility Technologist, Centre for Nano Science and Engineering (CeNSE), Indian Institute of Science, Bengaluru, for the immense help he rendered in getting the DSC and SEM measurements for the samples I have used in my research work.

Words are inadequate to express my gratitude to my parents Mr. D. Puttegowda and Mrs. C. Akkamahadevamma, who have been an inspiration throughout my life. They have always supported my dreams and aspirations. I would like to express my heartfelt gratefulness for what they are and what they have done for me. Throughout the research work I had the constant support of my sisters Meera, Deepa and Rashmi; brother Keerthi; brother in laws Nandeesh and Manjunath Swamy. Besides, lots of love to my little niece Saanidhya for being a stress buster and whose activities kept me full of life.

Last but far from the least, I thank each one who has directly or indirectly helped me in making my dream come true.

September 2013

Ramya P
