ACKNOWLEDGEMENTS

To say that this whole research work was done entirely by me can be considered as the lie of the millennium. There are people in this world, some of them so sweet and some so wonderful. An outstanding combination of such people had come together to make this research work you are holding possible. I would like to thank them all.

Ilangovan – my father, literally who was there from the beginning to the end of this research. Without him this thesis wouldn’t have moved forward. I owe him a great deal in helping me in such a way to complete this thesis. Mere dedication of this thesis can be considered an underrated word.

Philo Thomas - my mother, who has done all the hard work from preparing food in the late hours to finding out the notes which had been lost in my messy room despite her tiresome school work. It would have been another ‘one more year’ if she hadn’t helped me all the way.

Dr. V. M. Subramanian - Guide, mentor and a great teacher, the man behind the foundation of this thesis. I also thank him for not letting me down in front of others in spite of unthinkable hard times I had given him for over the last two years. It was so kind of him to devote his time to hear to my stupidity in the midst of his busy schedule as Deputy Registrar.

Dr. R. Palanivel - Head of the Department, English and Foreign Languages, Bharathiar University. He was there as the light at the end of the tunnel whenever I groped through darkness. I am very grateful to him for his kind support.

Prof. D. Victor – Former Director of Collegiate Education, Government of Tamil Nadu. I thank him wholeheartedly for evaluating the learning module of this study.

Dr. Indhirani Sridharan – Former Principal, Ethiraj College, Chennai. I am grateful to her for finding out animation resources.

Arul Moorthy – CEO, Da Vinci Institute of Animation, Valasaravakkam, Chennai. I owe my sincere gratitude for having evaluated the animation documents used in this study.

Dr. D. Kumaran - Former Head of Department, Department of Education, University of Madras. I thank him for evaluating the analysis part of this study.
Dr. S. Anbazhagan - Assistant Professor, Department of Lifelong Learning, Bharathidasan University, Tiruchirappalli. I would like to thank him for introducing and teaching me the SPSS – 17.0.

Dr. K. R. Rangaraj - Principal of Shree Gurukulam Higher Secondary School, Gobi. I would like to thank him for permitting me and being kind enough in giving me full support during my data collection.

Dr. P. Elango Jayaprabhu - Senior Lecturer, District Institute of Education and Training, Thirumoorthi Nagar. I will always be grateful to him for finding me a suitable school in Coimbatore for data collection.

Thangavelu - Headmaster of Ganapathipalayam Higher Secondary School, Tiruppur. I would like to thank him for being kind enough in permitting me in his school for data collection.

The Librarians of EFLU at Hyderabad, the American Library and the British Council Library at Chennai – Thanks to them for permitting me to make use of the resources available with them.

Dr. N. Balasubramanian (HoD) and Dr. Singaravelu of the Department of Education, Bharathiar University, Coimbatore; Dr. S. K. Panneer Selvam of the Department of Distance Education, Bharathidasan University, Tiruchirappalli – I owe my sincere gratitude to them for their valuable help whenever needed.

Last but not least. To Perumal, Sindhu Thamban, Vandhana, Raj Kumar, Asha Adlin, Christine Ann Thomas, Nataraj, Yang, and Chen – amazing friends who inspired and motivated me right from the beginning. All of them were so patient and had to undergo the ordeal of answering my crazy questions I shot at them every time. I shall be grateful to you all forever.

– I. Ajit
