ACKNOWLEDGEMENT

Any research work takes progressive strides under the able guidance of research supervisors. In this aspect I am fortunate enough to get the guidance of both supervisors, Dr. Lokendra Kumar and Prof. Bani Singh (HOD), Department of Mathematics, Jaypee Institute of Information Technology, Noida, under whom supreme and enlightened guidance I have been able to accomplish this work. Their advice, constructive criticism, numerous suggestions and many fruitful discussions have helped me in attaining a good grasp of the subject and also in improving my technical writing skills. I greatly appreciate their generosity, illuminating guidance, whole-hearted co-operation right from beginning of this research to its write-up and completion.

My sincere thanks to all my friends in JIIT who contributed directly or indirectly towards my research work in various ways.
My deepest sense of indebtedness goes to my beloved parents, parents-in-law and family members for their constant encouragement and moral support during my research work.

Finally, I owe my heart-felt gratitude to my husband Mr. Anupam Gupta and my daughter, Kritika, who had to undergo lot of inconveniences at times, though unavoidable, because of my involvement in research. They were always there for cheering me up and stood by me through the good and bad times. Words hardly suffice the support they provided during the whole course of my work.

This work could not have been completed if God has not provided me enough patience and power during this period. I shall be highly grateful to the Almighty.
