## CONTENTS

### CHAPTER I

**INTRODUCTION AND OBJECTIVES OF THE INVESTIGATION**

- References 05

### CHAPTER II

**LITERATURE ON CYCLODEXTRIN COMPLEXATION**

- Characteristics of α-, β-, γ- and δ-Cyclodextrins 07
- Pharmacokinetics of Cyclodextrins 09
- Regulatory Status of Cyclodextrins 09
- Formation of Complexes 10
- Methods of Preparation of CD Complexes 13
- Applications of Cyclodextrins 17
- Recent Research Work on CD Complexation 18
- References 22

### CHAPTER III

**LITERATURE ON DRUGS INVESTIGATED**

- NSAIDs: An Overview 29
- Etoricoxib – Profile 31
- Recent Past Work on Enhancement of Dissolution rate and Bioavailability of Etoricoxib 34
- Aceclofenac – Profile 49
- Past Research work on Aceclofenac formulations 53
- References 92
CHAPTER IV

LITERATURE ON SURFACTANTS USED 101

- Literature on Pluronic F127 (Poloxamer) 101
- Past Research work on use of Pluronic F127 (Poloxamers) for Enhancing Solubility, Dissolution Rate and Bioavailability 102
- Literature on Kolliphor HS15 (Solutol HS15) 115
- Past Research work on use of Kolliphor HS15 (Solutol HS15) for Enhancing Solubility, Dissolution Rate and Bioavailability 116
- References 124

CHAPTER V

ANALYTICAL METHODS 127

- Estimation of Etoricoxib by UV Spectrophotometric Method 127
- Estimation of Aceclofenac by UV Spectrophotometric Method 130
- Estimation of Aceclofenac in Plasma By HPLC Method 133
- Reference 140

CHAPTER VI

FACTORIAL STUDIES ON THE EFFECTS OF CYCLODEXTRINS AND SURFACTANTS ON THE SOLUBILITY AND DISSOLUTION RATE OF ETORICOXIB AND ACECLOFENAC 141

- Experimental 141
- Results and Discussion 205
- Reference 206
CHAPTER VII
FACTORIAL STUDIES ON THE FORMULATION AND EVALUATION OF ETORICOXIB AND ACECLOFENAC TABLETS EMPLOYING CYCLODEXTRINS AND KOLLIPHOR HS15
- Experimental 208
- Results and Discussion 236

CHAPTER VIII
PHARMACOKINETIC EVALUATION OF ACECLOFENAC-βCD - KOLLIPHOR HS15 COMPLEXES
- Experimental 241
- Results and Discussion 248
- References 249

CHAPTER IX
STABILITY STUDIES 250
- Experimental 250
- Results and Discussion 256

CHAPTER X
- Summary and Conclusions 257
