LIST OF ABBREVIATIONS

- AEV = Average Electrode Voltage
- AEP = Auditory Evoked Potentials
- AGF = Amplitude Growth Function
- ACE = Advanced Combination Encoders
- ART = Auditory Nerve Response Telemetry
- AVH / AVT = Auditory Verbal Habilitation / Therapy
- CI = Cochlear Implant
- CU = Clinical Unit
- cu = Current Unit
- CL = Current Level
- C-Level = Comfort Level
- CIS = Continuous Interleaved Sampling
- CAP = Category of Auditory Performance
- Dib = Diagnostic Interface Box
- EI = Electrode
- EABR = Electrically Evoked Auditory Brainstem Response
- ECAP = Electrically Evoked Compound Action Potential
- ESRT = Electrically Evoked Stapedial Response Telemetry
- GPI = Ground Path Impedance
- Hz = Hertz
- IT = Impedance Telemetry
- IFT = Impedance Field Telemetry
- KΩ = Kilo-Ohms
- LR = Linear Regression
MR = Multiple Regression
MAP = Measurable Auditory Percept
MCL = Most Comfortable Level
M-Level = Maximal Comfortable Level
NRI = Neural Response Imaging
NRT = Neural Response Telemetry
N = Number of Samples in Cohort
OGD = Optimal Gain Delay
PPS = Pulses Per Second
PW = Pulse Width
P1 = Most Suitable Program
p-value = Probability Value
PPS / Pod = Portable Programming System
PSP = Platinum Speech Processor
qu = Charge Unit
r = Correlation Factor
R = Reliability Factor
RF = Radiofrequency
SD = Standard Deviation
SE = Standard Error
SP = Speech Processor
SIR = Speech Intelligibility Rating
SR = Stimulation Rate
SAS = Sequential Analogue Stimulation
SPEAK = Spectral Peak
T-Level / THR = Threshold Level
