Acknowledgment

I wish to express my deep sense of gratitude to Dr. C. T. Shivannavar, Professor, Department of Microbiology, Gulbarga University, Gulbarga for his valuable guidance, inspiration, constant encouragement and critical suggestions throughout the course of investigation. I owe a great deal to him.

My research work would not have taken shape without the support of Dr. S. M. Gaddad, Professor, Department of Microbiology, Gulbarga University, Gulbarga. I am very much grateful to him for his valuable guidance, encouragement, suggestions and support.

I express my sincere thanks to Dr. K. Lingappa, Chairman, Department of Microbiology, Gulbarga University, Gulbarga, for providing necessary facilities and encouragement. I also thank all the faculties and guest lecturers department of Microbiology, Gulbarga University, Gulbarga for their advice and help during my research work.

I express my sincere thanks to all our lab mates for their cooperation, continuous support and encouragement during this work. Also I express my gratitude to all the research scholars and M.Sc., friends of this Department and other science departments of this university for their support and encouragement.

Thanks are due to SAIF, IISc., Bangalore for providing FT-IR and LC-MS analysis of dye degraded products. I am grateful to Dr. A. Venkataraman, Professor and Chairman, Department of Material Science, Gulbarga University for his kind help in extending the provision to carry out some of the analytical studies during my research studies.

I am also thankful to Dr. T. B. Karegoudar, Professor, Department of Biochemistry and Dr. Chandrakanth Kelamani Professor, Department of Biotechnology, Gulbarga University, Gulbarga for their timely help and moral support.

My sincere thanks to Darley P. and all staff of central computer center for providing unlimited internet facility. I thanks to Dr. R. B. Gaddagimath and Dr. Suresh G for providing library facilities. I also thanks to Sri. Pandhary P. Dhane, Senior technician and staff members, University Science Instrumentation Center, Gulbarga University, Gulbarga for their help during my research work.

I am indebted to Gulbarga University Gulbarga for providing Research Student Fellowship during my research tenure. My affectionate thanks to volleyball playing friends of all the departments research scholars and M. Sc students for their fruitful company.

Last but not the least let me express my profound sense of gratitude to my mother Laxmibai, father Channabasappa, brothers Sangamesh, Mahantesh, sister-in-laws Savita, Bhagyalaxmi, aunty Vankatalaxmi and uncle Shekhareddy without the care, love, support and sacrifice of whom I would not have completed my thesis.

Finally, I would like to give utmost credit to the colors (dyes) and microbes without their salient feature and performance this would not have been possible.

*All you always will be in memory*

Mallikarjun C. B.
