Acknowledgements

I am wholeheartedly indebted to my research guide Prof. Y.M Jayaraj for accepting me as a Ph.D student, his scientific knowledge with excellent research guidance is far beyond explanation which turned me as a true researcher. His scientific vision molded me to traverse into the all the possible aspects of the research problem. I am glad to state that I am bestowed with the efforts he had put up to integrate the right scientific research attitude along with scientific writing skills. I’m grateful to him for being understanding and supportive in all aspects my research career.

I am indebted to the all administrative authorities of Gulbarga University, Dr. K. Lingappa, Professor and Chairman, Department of Microbiology, Gulbarga University, Gulbarga for extending requisite laboratory facilities and support in my research endeavor. I am also thankful to all other professors of the Microbiology Department, Dr. S. M. Gaddad, Dr. A. Dayanand, Dr. C. T. Shivannavar and Dr. (Smt.) Vandana Rathod for their constant support, guidance and encouragement.

I would like to thank Dr. Yogesh Shouche, Scientist at National Center for Cell Sciences (NCCS), Pune for allowing molecular characterization work at his laboratory. My special thanks to Dr. Amit Yadav, Scientist who is technical resource behind the molecular characterization of isolates at NCCS-Pune. My special thanks to Dr. Avinash, Dr Venkat, Scientists at NCCS-Pune for their assistance during culture deposition at MCC-NCCS Campus, Pune.

I would like to thank Dr Ch. Sasikala, Professor, Bacterial Discovery Lab, Center for Environment, JNTUH, Hyderabad for permitting and assisting in bacterial taxonomy and sequence analysis work. I would like to extend my sincere thanks to Dr Ch. Venkata Ramana, Professor, School of life Sciences, University of Hyderabad, for his critical suggestions on taxonomy related work.

I would also like to thank the Director, STIC-CUSAT-Cochin for SEM photos and assisting the part of the research work; the Director, CDFD for providing HPLC facility; Dr. (Smt.)Madhura Rekka, Scientific Officer, Ms Pallavi, research assistant, CDFD, Hyderabad for carrying amino acid analysis.
I greatly acknowledge the Librarian, Gulbarga University, Gulbarga for providing adequate library and internet facility; the head of USIC for providing necessary scientific infrastructure facilities as and when required.

I would also like to thank my fellow lab mates, Mr. Ravi M, Ms. Shagufta Naseer and Mr. Vivek Kulkarni for their support during research. I would like to thank Dr. Prabhakar Chavan (Dept. of Chemistry, Gulbarga University) for his technical assistance during thesis preparation. I would also like to thank other research scholars within the department and other departments of Gulbarga University for their support.

I would like to thank all the non teaching staff members of Department of Microbiology, Gulbarga University for their timely help and support.

I do not have enough words to express my gratitude to my beloved parents Smt. Vijaya Lakshmi Rayudu, Shri Sreemannayarana Rayudu, my wife Smt. Kalyani Rayudu and my daughter Satyasrivarshini and all my family members for their love and support in this endeavor.

I am proud to express my deep gratitude to Dr (Smt.) Hemalata Jayaraj, Mr. Santosh YM for their care, moral support and encouragement.

Lastly, I wish to thank one and all who supported me directly and indirectly throughout my research.

Krishna Rayudu
