## CONTENTS

**SYNOPSIS**

**LIST OF FIGURES AND SCHEMES**

**LIST OF TABLES**

**LIST OF ABBREVIATIONS**

**CHAPTER – 1 INTRODUCTION**

1.1. Curcumin

1.1.1. Chemical structure and keto – enol tautomerism

1.1.2. Excited state photophysical properties

1.1.3. Biological effects

1.1.4. Interaction with biological membranes

1.2. Chlorin \( p_6 \)

1.2.1. Photophysical and photobiological properties: Effect of pH

1.3. Objective and scope of the present thesis

1.4. References
CHAPTER – 2 INSTRUMENTATION AND METHODS

2.1. Preparation of unilamellar liposomes 21
2.2. Size and Zeta potential measurements of liposomes 22
2.3. Principles of absorption and emission spectroscopy 23
2.3.1. UV – Visible absorption spectroscopy 24
2.3.2. Steady – State fluorescence spectroscopy 25
2.4. Fluorescence Lifetime measurements 25
2.5. Solvation Dynamics measurements 27
2.6. Second Harmonic Generation (SHG) 30
2.6.1. Introduction 30
2.6.2. Symmetry requirements 31
2.6.3. SHG From centrosymmetric structures 32
2.6.4. SHG: A tool to monitor bilayer transport of molecules 34
2.6.5. Experimental setup 36
2.7. References 39

CHAPTER – 3 PHOTOPHYSICAL STUDIES OF CURCUMIN EXCITED STATE IN TOLUENE - POLAR SOLVENT MIXTURE

3.1. Introduction 41
3.2. Materials and Methods 42
3.3. Results 45
3.4. Discussion 59
3.5. Conclusion 66
3.6. References 67

CHAPTER - 4 DIFFUSION OF CHLORIN \( p_6 \) ACROSS PHOSPHATIDYL CHOLINE
LIPOsome BIlayeR PRoBED BY SECond HaRMONIC GENERATION 70

4.1. Introduction 70
4.2. Materials and Methods 72
4.3. Results 74
4.4. Discussion 80
4.5. Conclusion 85
4.6. References 86

CHAPTER – 5 A COMPARATIVE STUDY ON THE EFFECT OF CURCUMIN AND
CHLORIN \( p_6 \) ON THE DIFFUSION OF TWO ORGANIC CATIONS
ACross A NEGATIVELY CHARGED LIPID BIlayeR PRoBED BY
SECond HaRMONIC SPECTROSCOPY 89

5.1. Introduction 89
5.2. Materials and Methods 91
5.3. Results 92
5.3.1. Absorption and emission spectra of the drugs in the
presence of POPG liposomes 92
5.3.2. SH signal from the drugs in the presence and absence 93
of liposomes

5.3.3. Diffusion of MG and LDS across POPG liposomes: 95

Effect of Curcumin and \( C_{P6} \)

5.4. Discussion 99

5.5. Conclusion 101

5.6. Reference 102

CHAPTER – 6 CONCLUSIONS 104
