Acknowledgements

All praise in the name of Almighty Allah, the most gracious, the most merciful who bestows blessings to everyone without any discrimination of colour, race, age, sex, time, country or language.

I owe a deep depth of gratitude to my influential mentor, ingenious and awesome research supervisor, Dr. N.B. Patel, Professor, Department of Chemistry, Veer Narmad South Gujarat University, Surat, Gujarat, India, under whose adroit supervision this tedious work culminated in success and he always infused ingenuity in me. He taught me how to conceptualize a collection of disparate facts, to formulate working hypotheses and to design experiment to test these hypotheses. I am greatly indebted to him. I am also thankful to Madam, Dhaval and Keval for their familiar behavior with me.

I would like to thank Head Dr. P. Bahadur, Department of the Chemistry, Veer Narmad South Gujarat University, Surat for providing me necessary facilities. I am thankful to teaching and non-teaching staff of the department for rendering every kind of help. I am thankful to the librarian of Veer Narmad South Gujarat University, Surat, for providing me the library facilities. I wish to thank S.A.I.F., Chandigarh for Spectral analysis and Dhanji Rajani, Microcare Laboratory, Surat, for antimicrobial activity screening. I would like to express my special thanks to University Grant Commission, for providing me Maulana Azad National Fellowship for my Ph.D. Research work.

I obliged to mention the names of my research colleagues Dr. Sandip Modi, Dr. Ashok K. Patel, Dr. Ashok L. Patel, Dr. Virendra Patel, Dr. Jaymin Patel, Dr. Hemant Patel, Dr. Satish More, Dr. Kunal Pathak, Dr. Sarvil Patel, Asif, Faiyaz, Sabir, Amit, Minesh, Nilesh, Vatsal, Snehal & Deepti, for their co-operation & kind support. I am thankful all my research fellow of department.

I am unable to find words to express my feelings of acknowledging the tremendous debt that I owe my loving father Mr. Hashibur Rehman and mother Mrs. Sehnaz Begum without whom my existence on this earth cannot possible. I am thankful to them for encouraging and always giving me moral support. I express my deep feelings to my late sister Sufiya Khan, brother and sister Abrar and Sumaiya, and for their encouragement and moral support during my entire research work. I would like to express my deep feelings to my little, sweet nephew Rehan and niece Alfiya.

(Imran H. Khan)
