ACKNOWLEDGEMENT

Research is a voyage where in contentment is synonymous with dissatisfaction, hope followed by despair and boom concurrent with gloom. So is its threshold, Ph. D. Nevertheless, at the terminal side, it is what you accomplished and to reach to this end many aids come to your rescue and rally behind you to finish off triumphantly. It is my endeavor to figure some hands who lent their support and assistance. Let me strive to acknowledge.....

Foremost, I bow in reverence and pay my sincerest obeisance to the Omnipotent and Omniseer, who bestowed upon me his kind blessings and mericies.

It would have been rather impossible to accomplish the thesis without my mentors who blessed me with his exquisite attributes and unparallel creative as well as scientific traits and guided me affectionately and compassionately all through my doctoral period for which I shall have no words to express. My advisor is my sole master who created in me the entire pre-requisites mandatory for the successful leaps of my research work. Whatever, I achieved in my starting career is the sole brainchild of my supervisor who instilled in me the confidence of executing the plan of work efficiently and focusing on my desired objective and infused in me the blood of research. His scientific temper and zeal has enthused me to carry out any sort of work efficiently and productively.

On the personal front, my Sir has all the humane traits, magnanimity, hombleness, generosity, character and qualities which are matched to the second none. He is a human being par excellence and shall remain a cherished ideal not only for me but others who will strive to follow his generous and cordial personality. His human nature, leadership qualities, cooperativeness, absorbing nature and beneficial attitude has vested me with the power of standing tall and boasted. I bow in reverence to my Sir, Dr. A.K Agarwal, Former Head & Dr. V.K Khanna, Principal Scientist, Developmental toxicology Division, CSIR-Indian institute of Toxicology Research, Lucknow to whom I owe all my achievements and accomplishments.

I am extremely thankful to my co-supervisor, Dr. Fakhrul Islam, Neurotoxicology Lab, Department of Medical Elementology & Toxicology, Jamia Hamdard, New Delhi for his constant inspiration, scientific interest, great insight and guidance throughout my programme.

I extend my sincere thanks to Dr. Sarwat Sultana, Head, Department of Medical Elementology & Toxicology, Dr. Sheikh Raisuddin, Dr. M. Saeed Siddiqui and Dr. Suhel Parvez, Jamia Hamdard, New Delhi, for his affectionate inspiration and worthy suggestions during the course of this study.

I feel proud in expressing my sincerest gratitude to Dr. K.C. Gupta, Director, CSIR-Indian Institute of Toxicology Research, Lucknow for providing all necessary facilities and showing keen interest in my work. His valuable suggestion and constructive criticism has given a proper dimension to my work.
I shall remain indebted to Dr. Devendra Parmer, Senior Principal Scientist & Head, Developmental Toxicology Division, CSIR-Indian Institute of Toxicology Research, Lucknow, Dr. V.P. Sharma, Dr. Aditya Bhushan Pant, Dr. Alok Dharaw and Mr. B.D. Bhattacharji is greatly acknowledged, for their unrelenting help and co-operation and offering their valuable inputs from time to time.

I owe my gratitude, to Dr. Pramod Kumar, Neurotoxicology Division, CSIR-Indian Institute of Toxicology Research, Lucknow for their valuable contributions in carrying out the neurobehavioral data.

I owe my sincere gratitude to Dr. Dhirender Singh, Scientist, CSIR-Indian Institute of Toxicology Research, Lucknow for providing the animal facilities for my research work.

I owe my sincere gratitude towards Dr. C.S. Ojha, Mr. Kailash Chandra, Mr. Prem, Mr. Maji, Mr. B.S. Pandey, Mr. Mohd. Aslam, Mr. Rajesh Mishra, Mr. Ajay and Mr. Kamlash for their technical assistance and moral support.

Words have never seemed so inadequate as now when I am endeavoring to express my deepest sense of gratitude to Dr. Kavita Seth, Women Scientist Awardee, Department of Science and Technology, New Delhi. Her wonderful loving nature, kind co-operation, valuable guidance and experience in this field helped me to overcome the difficult task of my endeavour with much ease.

I wish to express my sincere appreciation to my senior colleagues and scientists, Dr. Rajnish Chaturvedi, (Mrs) Dr. Shubha Shukla (CDRI), Dr. Kausar Mehmood Ansari, Dr. Amir Naazir (CDRI), Dr Sanjay Yadav, Dr. Chaitali Sinha, Dr. Alok Panday, Dr. Kartikeye Shukla for their kind help and guidance rendered to me at various stages of this work.

Friendship is a god given virtue and a valuable asset. I would cherish the company of friends like Dr. Maqsood Ahmed (KSV), Dr. Muheen Ahmed Ansari (USA) Dr. Etheslam Arif (USA), Dr. Ageel Ahmed (Finland), Dr. Maqsood A. Siddiqui (KSU), Dr. Tauheed Ahmed (USA), Dr. Rizwan Ahmed and all my friends who instilled in me the real virtues of friendship and acquaintanship.

Never ever would I forget the memorable company of my schoolmates and friends like Pankaj, Deepu, Pramod. My sincerest thanks go to my M.Sc. Batchmates like Zahid, Hamid, Ramash, Rashmibunkoti, Shajul-Rehman, Wahid, Ajaz and Niyaz.

I would like to acknowledge the valuable help and cooperation of my lab colleagues and friend, especially Mr. Rajesh Singh Yadav, Mr. Neeraj Tiwari, Mr. Rajendra Kumar Shukla, Mr. Lalit, Mr. Yogesh, Mr. Pranay Srivastava, Mr. Shashikant, Mr. Dinesh, Mrs. Nishi Srivastava, Mrs. Madhulata, Ms. Anshi, Ms. Vartika, Ms. Divya, Ms. Swati and colleagues from Neurotoxicology Laboratory, Jamia Hamdard, New Delhi. I would never forget their cordial cooperation and occasional light moments, I shared with them.
I would like to express my profound gratitude towards all the research fellows of our Division for their persistent help, unconditional support and invaluable suggestions, pertinent names to mention are, Dr. Anwar Jamal, Dr. Munindra, Mr. Anshuman, Mr. Amit, Mr. Sourabh, Mr. Shailendra, Mr. Deepak, Mr. Ritesh, Dr. Vivek, Mishra, Dr. Israr, Dr. Ashutosh, Mr. Abhishek, Mr. Mahendra, Mr. Vivek, Mr. Vinay, Mr. Feroed, Mr. Javed.

I also wholeheartedly thank to the trainees specially Pradeep, Amit, Pranav, Tanuj from various institutions for their support and cooperation during my study.

The driving force for the smooth accomplishment of my endeavour are my beloved parents, younger sister and brother who extended every care, moral support and affection not only in this period but during my entire span of life. I pay my sincerest obeisance to my cherished parents and grandfather without whom it was never impossible to fulfill my objective. I dedicate my thesis to my cherished parents.

I cannot adequately express my words and gratitude to my wife, Mrs. Gulshan and my cute daughter Zaina Warsi for her understanding nature, constant encouragement and moral support, without which it would not have been possible for me to pursue this task.

I also extend my sincere gratitude and thank the Indian Council of Medical Research (ICMR), New Delhi to sponsor the project and providing fellowship for carrying out work at the Developmental Toxicology Division, CSIR-Indian Institute of Toxicology Research, Lucknow.

Finally, I would like to acknowledge all the experimental animals that silently sacrificed their lives for my experimental work.

An inordinate and prodigious thanks to all.

Reyaz Waris Ansari
