ACKNOWLEDGMENTS

I am forever grateful to my own teacher, Dr. M. Abdul Khadar, Professor, Department of Physics, University of Kerala, Thiruvanananthapuram under whose guidance and direct supervision the present work was carried out. I am indebted to him for his inspiring guidance, keen interest and constant encouragement throughout the course of this work. His knowledge, insight, and objective thinking about research problems were a model for me.

I am indebted to Dr. M. A. Ittyachen, Professor and Director, School of Pure & Applied Physics, Mahatma Gandhi University, for providing me the basic facilities to carry out this work and his for constant advice and suggestions throughout the course of my research work. I also thank all the teaching staff for their help and cooperation.

I owe sincere thanks to Dr. M. Padmanabhan, Reader, School of Chemical Sciences, Mahatma Gandhi University, Kottayam, Dr. Radhakrishnan, Professor & Head, Department of Chemistry, University of Calicut, Dr. S. Devanarayanan, Professor & Head, Department of Physics, University of Kerala for extending laboratory facilities for carrying out part of this work.

I would like to express my sincere appreciation to several of my colleagues Jigan J, Shajo Sebastian, Joshy Jose, Sankaranarayanan Potty, Sindhu A. Kartha, Biju V and Sudheertha S. Nair for their sustained colleagueship, comradesy, and constant encouragement.

I am indebted to Dr. Arunan C, School of Chemical Sciences, and Dr. Cyriac Joseph and Mr. R. Dileep Kumar, School of Pure & Applied Physics, Mahatma Gandhi University, and Mr. Pradyumnan P. P, Lecturer, Dept. of Physics, University of Calicut, for their valuable help and encouragement at various stages of this work.

I express my sincere thanks to my friends Mr. Krishnad E, John Varughese K, Biju P. R, Gin Jose, Jaimon Yohannan, Santhosh Kumar, Gopakumar. P, Bubbly K. Joseph, Anit Elizabeth, and Narayanan Unni, Research Scholars, School of Pure & Applied Physics, Mahatma Gandhi university, for their whole hearted help and cooperation. My thanks are also due to the non-teaching staff, School of Pure & Applied Physics, Mahatma Gandhi University for their cooperation.

I find it hard to express adequately my feelings to Dr. P.S. Sukumaran, Lecturer, School of Behavioral Sciences, Mahatma Gandhi University, Letha R, Research Scholar, School of Bio Sciences, Mahatma Gandhi University and Gayathri P. S. for the love and care showered.

The patience, understanding, encouragement, and continuing love expressed by my parents, sister, brother and my other family members helped me endure the pains of completing this work.

Finally, I thank all those who have helped me directly or indirectly.

P.S. VIJOY
