- Pathogenicity test
- Different methods of inoculation
- Host range of the pathogen

DISCUSSION AND CONCLUSIONS      | 38-39|
PART II:

FACTORS AFFECTING THE GROWTH OF THE PATHOGEN

INTRODUCTION ........................................ 40-47
MATERIALS AND METHODS ......................... 46-54
RESULTS ........................................... 55-67
  - Effect of temperature on the mycelial growth of P. deliensae
  - Thermotolerance of P. deliensae
  - Effect of Hydrogen ion concentration on the mycelial growth of P. deliensae
  - Effect of various liquid culture media on the growth of P. deliensae
  - Effect of incubation period on the mycelial growth of P. deliensae
  - Effect of various trace elements on the mycelial growth of P. deliensae
  - Effect of various vitamins on the mycelial growth of P. deliensae

DISCUSSION AND CONCLUSIONS .................. 68-75

PART III:

IN VIVO STUDIES ON HOST METABOLITES

INTRODUCTION ..................................... 76-82
MATERIALS AND METHODS .......................... 83-95
RESULTS

A. Qualitative analysis of host metabolites
   - Post infection changes in free amino acid makeup of the host
   - Post infection changes in sugar makeup of the host
   - Post infection changes in organic acid makeup of the host
   - Post infection changes in phenolic makeup of the host

B. Quantitative estimation of the host metabolites
   - Post infection changes in the vitamin C contents of the host
   - Post infection changes in the carbohydrate contents of the host
   - Post infection changes in the carbon and nitrogen contents (C/N ratio)

DISCUSSION AND CONCLUSIONS

PART IV:

ENZYMOLICAL STUDIES

INTRODUCTION

MATERIALS AND METHODS

RESULTS

- Pectic enzyme activity in healthy and diseased C. utilissimus fruits
- Cellulase (C-type) activity in healthy and diseased C. utilissimus fruits
- Amylase activity in healthy and diseased C. utilissimus fruits

DISCUSSION AND CONCLUSIONS  . . . 162-169

: PART V :

STUDIES ON THE CONTROL OF PYTHIUM DELIENSE

ROT OF CUCUMIS UTILISSIMUS FRUITS

INTRODUCTION . . . 170-178

MATERIALS AND METHODS . . . 179-189

RESULTS . . . 190-209

-Growth response of P. deliense to fungicides

-Effect of selected fungicides on the disease development

-Growth response of P. deliense to antibiotics

-Effect of selected antibiotics on the disease development

-Growth response of P. deliense to organic volatiles

-Growth response of P. deliense to fixed and essential oils

-Screening of antagonistic organisms and growth response of P. deliense to their culture filtrates

DISCUSSION AND CONCLUSIONS . . . 210-218

: PART VI :

MISCELLANEOUS
