Chapter-1

Synthesis and characterization of some 4-amino coumarin derivatives using microwave irradiation

1.1. Introduction 1
1.2. Pharmacology 3
1.3. Synthetic aspects 5
1.4. Aim of current work 8
1.5. Reaction scheme 10
1.6. Plausible reaction mechanism 10
1.7. Experimental 11
1.8. Physical data 12
1.9. Spectral study 16
  • IR spectra
  • \(^1\)HNMR spectra
  • \(^{13}\)C NMR spectra
  • Mass spectra
  • Elemental analysis
1.10. Spectral characterization 20
1.11. Conclusion 25
1.12. Representative spectrum 26
1.13. References 33

Chapter-2

Multistep synthesis of some novel imidazo[1,2-a]pyridine and thiazole derivatives

2.1. Introduction 40
2.2. Pharmacology 41
2.3. Synthetic aspects 48
Chapter-3

A facile synthesis of some novel substituted 1-((5-(benzofuran-2-yl)-1,3,4-oxadiazol-2-yl)methyl)amine

3.1. Introduction 78
3.2. Pharmacology 80
3.3. Synthetic aspects 83
3.4. Aim of current work 87
3.5. Reaction scheme 87
3.6. Plausible reaction mechanism 88
3.7. Experimental 89
3.8. Physical data 91
3.9. Spectral study 94
   • IR spectra
   • $^1$HNMR spectra
   • $^{13}$C NMR spectra
   • Mass spectra
• Elemental analysis

3.10. Spectral characterization 97
3.11. Conclusion 102
3.12. Representative spectrum 103
3.13. References 111

Chapter-4

Synthesis and characterization of N'-(2-(substituted benzamido)thiazol-4-yl)-2-propylpentanehydrazide

4.1. Introduction 113
4.2. Valproate: Past, Present and Future 113
4.3. Chemical structure of valproic acid and its derivatives 114
4.4. Physical properties of valproic acid 115
4.5. Uses of valproic acid 115
4.6. Synthesis of valproic acid 115
4.7. Mechanism action of valproic acid 116
4.8. Anticancer activity of valproic acid 118
4.9. The second generation to valproic acid 118
4.10. Aim of current work 120
4.11. Reaction scheme 121
4.12. Plausible reaction mechanism 122
4.13. Experimental 123
4.14. Physical data 125
4.15. Spectral study 127
  • IR spectra
  • $^1$HNMR spectra
  • $^{13}$C NMR spectra
  • Mass spectra
  • Elemental analysis
4.16. Spectral characterization 130
4.17. Conclusion 133
Chapter-5

Biological evaluation of synthesized chemical entities

5.1. Introduction 143
5.2. Procedure for the resazurin MIC assay 143
5.3. References 150
