ACKNOWLEDGEMENTS

I am highly indebted to Dr. O.P. Gupta, Reader in Zoology of this Department, who suggested such an interesting problem and express my deepest gratitude to him for his constant encouragement, cogent guidance and everlasting supervision during this work.

A word of thanks goes to Prof. F.K. Shrivastava (Ftd. Professor and Ex-Head of the Department of Zoology) for providing me space and other lab assistance for this work.

I express my heartfelt gratefulness to Prof. B.K. Srivastava, M.Sc., D.Phil. (Allahabad), Professor and Head of the Department of Zoology, Dr. Harisingh Gour Vishwavidyalaya, Sagar, M.P., for his invaluable help during this tenure. Without his inspiration my work would have not been accomplished timely.

My sincere thanks are also due to the M.P. Government, Bhopal for awarding me a Merit Research Scholarship.

I am also obliged to my all friends for their invaluable help at various stages.

Lastly but not the least I also owe my gratitude to my beloved mother Mrs. G.K. Pandya, who had been a constant source of inspiration to me even during the strenuous moments of this work.
