I have immense pleasure in expressing my sincere gratitude and profound sense of indebtedness to my teacher and research supervisor Dr. D.V.R Salgopal, Associate Professor, Virology Department, S.V.University, Tirupati for suggesting the problem and meticulously assessing the progress of the work at every stage.

I am very much thankful to my teacher Prof. M.V. Naidu (Retd), Virology Department constant encouragement and suggestions during my Ph.D period.

I express my thanks to Prof. P. Sreenivasulu, Head, Department of Virology, Sri Venkateswara University, Tirupati, for his suggestions and help during my Ph.D work.

My thanks are due to Dr. R.Usha, Reader, Department of Plant Biotechnology, Madurai Kamraj University, MADURIA for allowing me to carry out some of my research work in her laboratory. My words fail if I don't acknowledge her able guidance and constant encouragement during the period of the present investigation.

I am grateful to Dr. Krishna Reddy, Senior Scientist, Pathology, IIHR, Bangalore for providing antisera of INSV and for allowing me to use electron microscope, and his valuable suggestions for the progress of my research work.

I am grateful to Prof. D.V.R.Reddy, Retd, P.S. ICRISAT Hyd. for providing antisera of PBNV and PSNV which was useful to my research work.

I am grateful to Prof. R. Kormelink, Netherlands for providing antisera of IYSV during my Ph.D work.

My thanks are due to Dr.GOPAL, Scientist, Plant Pathology, AICRP ON CITRUS ANG.R.A.U, Tirupati, for his help, affection and moral support.

I would like to thank my friends and co-researchers, Jeba, Thomas, Girish, Preveen, Joyce, Archana, Anoop and Satish, ABD and Sundaram for their help and cooperation in carrying out some experiments at M.K University during my stay at Madurai.

I am thankful to my co-researchers Dr.Hema, Dr.Venkata ramana, Mr.Prasanna and Srinivasulu for their cooperation and help during my research work.

My thanks are due to my friends Prasad Babu, Hussain, Chandra sekar and Shoban babu for their help during my Ph.D.

My thanks to Mr. Chandrasekar (Virology) Umepathi (Citrus station) and Mr. Hemanth for timely cooperation in typing the thesis work.

I am taking this opportunity to express my sense of gratitude to my Childhood friends K.Srikant and T.Vijaya Bhaskar for their affection, moral support and encouragement during my studies.

I am taking this opportunity to express my thanks to my Family friends, Sri.Lakshmi Mallikarjuna setty, Geeta Venugopal, Shobha Premkumar, Vimala Ravi Venkatesh and their children for their love and affection.

Last but not least, I feel very happy to say thanks to my family members, Mother Smt.K.Lakshmi Devi, Father Sri. K. Radha Krishna Murthy and Sisters Nagamani and Prasanna, my Brother K.Venu Gopal and My Uncle and Aunty Sri.C.Guru murthy, Smt.C.Nagamani and Kiron for their affection, encouragement and support during my studies.

I am grateful to my Uncle and Aunty, Sri.G.Prabhokar, Smt. G.Rajeswari and cousin Sreenivasu, for their love and affection, and support during my studies.

Finally, I greatly appreciate with Love and affection, and gratitude the patience, endurance and sacrifice of my wife APARNA who smilingly bear the family burden and still provide the encouragement to successfully complete this work.

I am very much grateful to CSIR, New Delhi, India for providing the fellowship during the period of my research work.

However despite of all these contributors ultimate responsibility for any errors must be mine.

VENKATA SUBBAIAH. KOTAKADI
