ACKNOWLEDGEMENTS

First and foremost I thank the Almighty for giving me strength, vigor, determination and good health to pursue the research work in an area that has been of real interest to me.

Undertaking this Ph.D., has been a truly life-changing experience for me and it would not have been possible to do without the support and guidance that I received from many people.

At this moment of accomplishment, first of all I pay my sincere gratitude to my research advisor, Dr M. Arivazhagan, M.Sc., M.Phil., B.Ed., Ph.D., This work would not have been possible without his guidance, support and encouragement. Under his guidance I successfully overcame many difficulties and learned a lot.

It’s my fortune to gratefully acknowledge the support of some special individuals. Words fail me to express my appreciation to Dr T. Uma Devi for her support, generous care. She was always beside me during the happy and hard moments to push me and motivate me.
