CONTENTS

1. GENERAL INTRODUCTION

1.1 Preamble 01
1.2 Review of Literature 05
1.3 Description of the Study Area 10
1.4 Systematic position of *Scylla serrata* 11
1.5 Description of the study animal 12
1.6 Scope of the present study 14
1.7 Thesis work plan 17

2. CONSUMPTION ASSESSMENT QUALITIES

2.1 Introduction 18
2.2 Materials and Methods 20
  2.2.1 Collection of sample 20
  2.2.2 Acclimatization of wild *S. serrata* 20
  2.2.3 Biochemical Estimation 21
  2.2.4 Analysis of Bacterial flora 23
  2.2.5 pH 28
3. QUALITY IMPROVEMENT METHODS

3.1 Introduction  
3.2 Treatment Techniques  
3.2.1 Chlorine (100ppm) Treatment  
3.2.2 Ozone Treatment  
3.2.3 Combined use of Chlorine with Ozone Treatment  
3.3 Result  
3.4 Statistical Analysis  
3.5 Discussion  

4. ORGANOLEPTIC CHARACTERS OF CRAB

4.1. Introduction  
4.2. Materials and Methods  
4.3. Result  
4.3.1 Overall acceptability of the product
4.3.2 Sensory attributes analysis 48

4.3.3 Texture of the muscle 49

4.4. Discussion 49

5. SUMMARY 52

6. BIBLIOGRAPHY 55-85

7. ANNEXURE
