AKNOWLEDGEMENT

It is a pleasure to thank those who made this thesis possible. I owe my deepest gratitude to my Guide Dr. Leelavathi S, Associate professor, Department of Studies in Botany, University of Mysore, Manasagangotri, Mysore, under whose guidance and supervision the study was carried out. I am immensely benefited by her guidance and constant encouragement throughout the course of the study. Without her guidance and persistent help this thesis would not have been possible.

I am grateful to Prof. K.A.Raveesha, Chairman, DOS and BOS in Botany, University of Mysore, Manasagangotri, Mysore, for providing all the necessary inputs to my work and motivating me in pursuing my further studies.

My sincere thanks and appreciation goes to all the staff members of DOS in Botany, University of Mysore, Manasagangotri, Mysore, for helping me with my work with patience throughout the time it took me to complete my research and write the thesis. I wish to thank the research scholars and also the non teaching staff of the DOS in Botany, University of Mysore, Manasagangotri, Mysore, for all their support.

It is an honour for me to thank Dr. Rayankula Naidu, Ex- Director Coffee Board, Bangalore, and at present Director, Centre for Shridevi Research Foundation, Tumkur, who made his support available to me in number of ways and helped me by motivating and constantly advising me to build up my career.

I would also like to thank Dr. M.R. Hulinayakar, Managing Trustee, SCT, Tumkur and Dr. M.A.Venkatesh, Principal, Shridevi Institute of Engineering and Technology, Tumkur, for providing the facilities to achieve my research objectives at their institution. I would like to express the deepest appreciation to all the Colleagues, students and office staff for their constant help and support during the research period.

I am immensely thankful to Prof. Goli Divakar, Principal, Acharya BMR college of Pharmacy, Soladevanahalli, Bangalore, for his valuable suggestions and support during my
tenure in ACIT, Bangalore. I am also grateful to Mr. Sampath Kumar, Taxonomist, Mysore and Mr. Ismail Shareef M, Faculty, ACIT, Bangalore, for their immense help during the collection of the plant materials and experimental set up.

I would also like to render my thanks to RR college of Pharmacy, Management, Principal and staff for their support and help in achieving one of the research objectives.

I am indebted to and profoundly grateful to Dr. Jyothsana Rao, Director, Sri Raghavendra Biotechnologies Pvt. Ltd, Bangalore for permitting me to carry out my major research objective on In-vitro anticancer analysis at their R & D centre. I am also grateful to Mr. Purushotam for his constant supervision and help while carrying out the research work.

I am extremely thankful to God almighty, the supreme power that has always been in constant social and moral support through My Parents to me. My Father and my Mother Mr. S.S. Shrivastava and Mrs. Usha Shrivastava who have always being a spirit of inspiration in all my endeavors. I am also grateful to my elder sister Dr. Leena Shrivastava for all her guidance and support that she has given me during the research studies. I am also thankful to my brother Er. Sandeep Shrivastava for all the care and love he has showered on me. I would also like to acknowledge my niece and nephew Grithi Shrivastava, Nanditha and Arnav Shrivastava for all the happiness they have given me during the research years.

At last but not the least to my beloved Husband Mr.M.D.Daric Kumar whose unconditional love and support has always motivated me in achieving my goals.

Finally, I would like to thank Shri. M. S. Chandrashekhar for all his support. I owe my thanks to all the well wishers and elders who have constantly showered their blessing on me.
