ACKNOWLEDGEMENTS

This thesis is the result of many a long hour involving arduous research and the culmination of a process that included the constant assistance, support & guidance afforded to me by my fellow academicians whom I am deeply indebted. This achievement been accomplished, in no small measure, due to their sheer professionalism and dedication which they demonstrated time after time. It is to them that I owe my heartfelt thanks and the overwhelming sense of satisfaction that I feel at this stage.

I would like to express my deepest regards and sincere gratitude to Prof. K. Byrappa, Research Guide and Chairman of Department of Studies in Geology, University of Mysore, Manasagangotri, Mysore, for his guidance, enthusiasm and support. I really appreciate his constant encouragement throughout my Ph. D studies, his faith in the abilities of the students and his ready availability on all matters. He is not only a helpful advisor, but also a dear friend.

I express my sincere gratitude to Prof. S. L. Belagali, Chairman, Department of Studies in Environmental Science, University of Mysore, Manasagangotri, Mysore, for his moral support.

I am grateful to Dr. B. Basavalingu, Reader, Department of Studies in Geology, University of Mysore, Manasagangotri, Mysore, for his constant words of encouragement and for the thought provoking discussions I had with him.

I record my sincere thanks to Prof. K. M. Lokanatha Rai and Dr. S. Ananda, Reader, Department of Chemistry, Dr. S. Srikantaswamy, Department of Environmental Sciences, Prof. C. Ranganathaiah and Prof. R. Somashekar, Department of Physics, for their esteemed help and valuable guidance.

I wish to express my heartfelt gratitude to Prof. M. Yoshimura, Tokyo Institute of Technology, Tokyo, Japan, Prof. Dirk Ehrentraut, Institute of Multidisciplinary
Research for Advanced Materials, Tohoku University, Japan, and Prof. Kohei Soga Tokyo University of Sciences, Chiba, Japan for availing the instrument facility for characterization throughout the course of the investigation.

I express my sincere gratitude to Dr. B. V. Suresh Kumar, Department of Studies in Geology, University of Mysore, for his encouragement and moral support.

I am thankful to Mr. G.V. Narasshima Rao, Center of Excellence of Structural and Chemical Characterization, International Advanced Research Center for Powder Metallurgy and New Materials (ARC – I) An autonomous R and D Center of DST, Govt. of India, Hyderabad for providing XRD facility.

I am thankful to Dr. A. K. Subramani, Nissan India, Chennai and Dr. M. S. Vijaykumar, Tokyo Metropolitan University, Japan, for their valuable help in carrying out the SEM characterization and moral support.

I am grateful to my fellow researchers Dr. P.G.Smitha, Dr. P. Madhusudan, Dr. C.K. Chandrashekar, Mr. A.S. Dayananda, Mr. H.N. Girish, Mr. S. Vasuki, Mr. H. P. Shivaraju, Mr. Behzad Shahmordadi, Mr. H. R. Ravikumar, Miss. Tabasom Parvin, Mr. J. Komal Kumar and Mrs. M.K. Padmashree & Mrs. Ashwini secretaries of Prof. K. Byrappa. for their timely and needful help during this work.

I thank all the teaching and non-teaching staff, fellow researchers, friends, of the Department of Studies in Environmental Science who, in one way or the other, have helped me during the course of this work.

I am particularly indebted to my parents, brother, sister, relatives and friends who showed constant encouragement and affection, throughout my studies.

Finally I wish to thank all the invisible help rendered by various persons throughout my career.

- C. P. Sajan
