PREFACE

The present thesis is based upon the research work carried out at the school of studies in Zoology, Jiwaji University, Gwalior and at the Department of Zoology, University of Sagar, Sagar, unto November, 1974.

I am deeply grateful to my supervisor, Dr. R.S. Saini, M.Sc., Ph.D. (Sagar), Ph.D. (Cambridge), F.R.E.S., F.Z.S., F.R.M.S., for suggesting me this problem and for guiding me in this research with untiring interest and help throughout, and for offering me many constructive suggestions in the pursuit of my research.

I am also grateful to Dr. K.W. Mehrotra, Senior Insect Physiologist, I.A.R.I., New Delhi, for helping me in learning the different biochemical techniques, used in the present study.

My thanks are also due to Dr. R. Mathur, School of studies in Zoology, Jiwaji University, Gwalior (M.P.) and to Head, Department of Zoology, University of Sagar, Sagar (M.P.) for providing me the necessary laboratory facilities in the formative period of my work.

I also consider it my duty to express my thanks to Dr. B.S. Chauhan, Vice-Chancellor, University of Sagar, for the award of research-support grant, and being a zoologist, for his keen interest in my research work.
I am thankful to Dr. Y.N. Sahai, and Dr. D.P. Gupta, for providing relevant literature from their personnel collection.

I particularly recall with gratitude the help I received from Shri S.C. Pathak, Asstt. Professor, Shri M.M. Singh, Shri V.K. Sharma, Dr. A.K. Mandloi, Shri N.W. Shukla, Shri Arun Shukla, Shri A.K. Shrivastava and Miss Nirmala Balkrishna.

My thanks are due to my fellow-students and friends especially to Mr. S.A. Faruqui, Mr. G.S. Parashar, Mr. D.P. Agrawal and Mr. U.S. Gupta, who have directly or indirectly lent a helping hand in successfully completing this thesis.

Lastly, I acknowledge my profound gratitude to my father, Shri R.W. Shukla, who gave me full encouragement, whenever I found myself in hardship and despair.

SAGAR
December, 1974.

(R.W. Shukla)
