ACKNOWLEDGEMENT

On this gracious occasion, first of all, I bow to the Almighty without his blessings this work could never have been blossomed and completed.

I feel immensely happy to express my most sincere thanks and gratitude to owe my advisor Dr. Veeru Prakash (Associate Professor), Department of Biochemistry & Biochemical Engineering, for his kind initiation, encouragement, sincere and attiring efforts and inspiration throughout the period of my lab work and preparation of this manuscript. It would not have been possible to present this report in its present form without his help and support. I extremely indebted to him for being meticulous thought investigation.

I owe my profound thanks of gratitude to Dr. A, M. Lall (Associate Professor and Head) and Prof. (Dr.) A. B. Abidi (Former Head) Department of Biochemistry & Biochemical Engineering, boosted my strength, energy and build up patience in me during experimental work.

I express my deep sense of gratitude to Dr. Arun Kumar (Scientist-I), Prof. (Dr.) Akhileshwari Nath (Head, Research Center), Dr. Jitendra Kumar Singh (Director), Mahavir Cancer Sansthan & Research Centre, Phulwari Sharif, Patna, Bihar for their appreciable direction, precious advice and necessary facilities for the accomplishment of this target.

I owe my sincere gratitude to Dr. Suchit A. John (Associate Professor), Department of Biological Sciences; Dr. (Mrs) Sapna Smith Lal (Assistant Professor), Department of Health and Indigenous Medicine Science; Dr. Kapil Lawrence (Associate Professor), Dr. (Mrs) Sushma (Assistant Professor), Dr. (Mrs) Yashodhara Vema (Assistant Professor), Dr. Shailendra Kumar Srivastava (Assistant Professor) and Er. Akhilesh Bird (Assistant Professor), Department of Biochemistry & Biochemical Engineering for their outstanding support and guidance.

I am exclusively thankful to Hon’ble Vice Chancellor Professor Dr. R. B. Lal, of Sam HigginBottom Institute of Agriculture, Technology and Sciences, Formally Allahabad Agricultural Institute Demeed University, Allahabad, for providing all necessary facilities to conduct the experiment.
Words are not enough to express my grateful appreciation for my parents, brother, sister and all other family members. It was their dream and ambition that made me strong to pursue further studies. It is their endless support, patience, inspiration, affection and encouragement that have made it possible. I take this privilege with great pleasure to express profound and sincere sense of gratitude to my seniors Dr. Pankaj Kishor Mishra, Dr. Pawan Maurya, Dr. Navneet Singh, and Dr. Umesh Kumar for their cordial help, innovative ideas and perfectual encouragement throughout the course of study.

I feel benefits of words to thank my friends Dr. Rohit Srivastava, Mr. Fazli Tayeb, Mr. Bhaskar Sharma, Mr. R. Ganarajan, Mrs. Meenakshi mishra, Miss. Rekha Shirohi, Miss. Saumya Mishra, Miss. Anju Kumari, Miss. Shweta Sinha, and Miss. Maneesha Dubey for their moral and mental support during hard hours of work.

At last but not least I am extremely thankful to Mr. Ramsagar, Mr. Hemant and Mr. Dilshad who have helped me in completion of my work. I owe my heartiest thanks to all those people who have helped me to complete this task.
