ACKNOWLEDGEMENTS

Discipline, determination, focus and patience are the words that come to mind when we deal with Science and Technology. Areas of research in Science and Technology control the growth and development of human beings and we feel proud that we are working in the field of Science and Technology, due to Blessings of Almighty God. First of all I would like to thank Him, because only due to His grace I was able to complete this Thesis successfully.

I shall be lacking in my duties unless I put into words my gratitude and humbleness to Honourable Vice Chancellor, Prof. (Dr.) R. B. Lal Vice-Chancellor SHIATS and Bishop of Yeshu Durbar congregation, SHIATS, Allahabad, whose fatherly affection, constructive suggestions, encouragement, assistance and candid approach of critical analysis of the subject direct me to drive the goal. He shall remain ideal throughout my life.

I cordially thank to Prof. (Dr.) S. B. Lal, Pro Vice-Chancellor SHIATS, for his invaluable support, encouragement and unfailing help, concern and benevolent advice rendered to me.

This acknowledgement seems to be incomplete without name of Prof. (Dr). A. K. A Lawrence, Registrar (SHIATS) and Prof. (Dr.) B. P. Masih, Dean, Jacob School of Biotechnology and Bioengineering whose consistent help has only leaded me to the completion of this project work.

I avail this opportunity to express my profound gratitude and indebtedness to my advisor Prof. (Col.) Gurmit Singh, my co-advisor Prof. (Dr.) George Thomas, Head & Professor, Department of Molecular & Cellular Engineering, SHIATS, Allahabad, and Prof. (Dr.) Pramod W Ramteke for their keen interest, valuable suggestions, inspiration and guidance.

I would like to express my sincere thanks and acknowledge indebtedness for constant support to Prof. (Dr. Mrs.) Rubina Lawrence, Head, Department of Microbiology and Fermentation Technology and Dr. Gulshan Wadhwa, Scientist-D, Department of Biotechnology, New Delhi.
I am grateful to my seniors Dr. Satendra Singh, Dr. Budhayash Gautam, Mr. Prashant Ankur Jain, Mr. Pramod Kumar Yadav, Mr. Rohit Farmer at Department of Computational Biology and Bioinformatics, Jacob School of Biotechnology and Bioengineering, Sam Higginbottom Institute of Agriculture, Technology and Sciences, Deemed to be University Allahabad.

I wish to express my grateful thanks to all the teachers from my schooling days onwards and my well wishers as well to my critics, who have directly or indirectly helped me to reach up to this level in my life. Last but not the least, I expect that my thesis file prove to be worthy in your liberal hands.

I can never find words to express my feeling and gratitude to loving sister Aasna Srivastava without her love and cooperation it would not have been able to accomplish this task.

I find no such measure, adequate to quantify, all that my Father Mr. R.M.L Srivastava and Mother Late. Smt. Ashoka Srivastava and my friend Er. Ritesh Sinha has done for me. Words with me are insufficient to express the feeling of my heart to acknowledge them for educating me and keeping me in all comfort without which this work would not have seen the light of the day at all.
