ACKNOWLEDGEMENTS

In the completion of this thesis work I find the realization of a long cherished goal and the ending of nerve recking hard work. In the pursuit of the research work my contribution becomes microscopic as compared to that of my research supervisor, teachers, friends and family members. Words are a poor expression of feelings but still I shall try to comprehend as far as I can.

I stand highly obliged to my research supervisor, Dr. R.K. Shrivastava, M.Sc., Ph.D. (Saugur), D.Sc. (Paris), F.Z.S.I., Professor and Head, Department of Zoology and Dean, Faculty of Life Sciences, for his painstaking guidance, criticism and encouragement.

My grateful acknowledgements are due to Professor (Retired) K.S. Saini and Dr. D.K. Saraf.

I am thankful to my colleagues Shri R.K. Jain (Teacher Fellow), Shri Subodh Jain (CSIR - JRF), Ku. Manisha Sil (CSIR - JRF), Shri Salil Shukla and Miss Rajshree Jain (ICMR - JRF) for their unfailing help and cooperation. Mr. R.P. Patel has his own place for a clear and errorless typing.

I express thanks to UGC for finances. I am ever grateful to all my family members for their continued help and affection.

Last but not the least, I thank my husband Shri Sanjay Chaudhary I.P.S. (Indian Police Service) for his inspiration and encouragement in completing this work.
