ACKNOWLEDGEMENTS

First of all my heartfelt salutation to the feet of Almighty, who bestowed upon me the strength and zeal as a result of which this arduous task has been completed. I have no words to express my heartfelt gratitude to my beloved parents without whom I would never have been able to reach this far.

I consider it as great privilege to have late Prof. (Dr.) S. S. Singh, Ex. Head, Department of Agronomy and Dean, (Rtd.) Faculty of Agriculture, Director, Auxiliary Unit, SHIATS, Allahabad as my ‘Guru’ and thesis advisor, who through his noble advice, constructive criticism, unceasing encouragement, strong commitment and endeavor for perfection guided me from the very conception to the end of this work. It would have been impossible for me to present this thesis, in its present form, but for his exceptional analytical and outstanding supervision.

With sincere gratefulness I wish to express my indebtedness and profound thanks to my co-advisor Dr. Joy Dawson, Associate Professor, Department of Agronomy, SHIATS, Allahabad, who through his constant advice and constructive criticism nourished my interest in the subject and provided a free and pleasant atmosphere to work against all odd situations.

Indeed I am feeling short of words to express my gratitude to Prof. (Dr.) Gautam Ghosh, Professor and Head, Department of Agronomy and Dean, Allahabad School of Agriculture, SHIATS, Allahabad for his worthy guidance, suggestions and affection bestowed upon me during entire course of study.

I express my sincere thanks to Prof. (Dr.) Thomas Abraham, Prof. (Dr.) P. J. Jorge, Dr. Rajesh Singh and Dr. Vikram Singh of the Department of Agronomy, for the help and assistance provided to me from time to time during my Ph. D. programme.

I fail to owe debt of my gratitude to Dr. Swapnil Srivastava, Assistant Professor, Department of Mathematics and Statistics, SHIATS, Allahabad, who is a member of evaluation committee of my research work. I am highly obliged for his dedicational help in the statistical analysis of this manuscript.

I want to extend my heartiest gratitude and deep sense of obligation to the Supervisory Committee Prof. (Dr.) Mohd. Kaleem, Professor & Head Department of
Agronomy and Dean, (Rtd.) Allahabad School of Agriculture and Faculty of Agriculture, presently Director, Staff Welfare, SHAITS, Allahabad his propitious guidance, overall cooperation and technical advice during my research and presentation of this manuscript.

Thanks are also extended to the external experts Prof. (Dr.) R.C. Tiwari, Professor, Department of Agronomy, College of Agriculture, Udaipur, Rajasthan for evaluation my thesis and valuable comments.

I would fail in my duties if I do not acknowledge the great help and support rendered to me by non teaching staff Mr. S.S. Ali, Mr. Roshan Lal, Mr. Mustak, Mr. Vikas, Mr. Ram Murat, Mr. Vikas and all the field workers of the Department of Agronomy, for their help during the course of my research work.

I owe special thanks to Mr. Deepak Chaudary, Deputy Project Director, Agriculture Technology Management Agency, Krishi Bighag, Uttar Pradesh.

I am overwhelmed with rejoice to avail this golden opportunity to evince my profound sense of indebted to my beloved and revered father, mother, brother and sister their sacrifices, prayers, love and continued motivation and exhilaration rendered to me throughout the period of my higher studies, particularly at the cost of conveniences sacrificed, without which this achievement would not have become a reality.

I also express my deepest sense of gratitude to my friends Dr. Shishir Kumar, Dr. Sanjay Kumar Patel, Dr. Vinod Kumar and Dr. R.G. Raja for providing help and better suggestions during preparation of the manuscript.

I am thanking each and every person soliciting his or her good wishes for my future.

Place: SHIATS, Allahabad
