ACKNOWLEDGEMENTS

First and foremost, I feel duty bound to express my deep sense of gratitude and thankfulness to Dr. Anil Kumar Tyagi, my research supervisor. This thesis owes its final shape and form solely to his meticulous guidance. My special thanks are also due to Dr. P. Bahadur (Principal of DAV College, Muzaffarnagar) for providing research facilities. I am also grateful to the Head of the Chemistry department for the timely assistance during the course of investigation. Useful discussions with teaching faculties of the department have also helped me immensely. The cooperation from non-teaching staff of the chemistry department also merits a special mention.

Thanks are also due to my contemporary research fellows in the laboratory, notably Sh. K.P. Singh (a permanent faculty in the Chemistry department), Dr. (Mrs.) Neetu Singh, Mrs. Seema Maan, Km. Sonia, Km. Suchitra Tyagi, Km. Deepika Shukla and Km. Deepti Tyagi, for cooperation. The help provided by my roommate, Mr. Shardendu Gupta, who works as a Chemist in R&D section of “Ravi Organics Ltd.”, a premier industry here at Muzaffarnagar, need be placed on record as
well. **Mr. Peeyush Goel**, the proprietor of “Dream Shapers” deserves praise and thankfulness for his special skills in draughtsmanship exhibited during the preparation of my thesis.

No words would ever be enough to express the support and care extended by **my dear parents** and **family members**. Their unending encouragement even while adverse family circumstances weighed me down has been a key to this wonderful success.

Date :  

Tarun
DEDICATED TO

MY GRANDFATHER
