ACKNOWLEDGEMENT

I pay homage to The Supreme for inspiring me to take up the task and paving my way to success.

I sincerely acknowledge Dr. Ashok Gupta, Vice-Chancellor, The IIS University and Dr. Raakhi Gupta, Registrar, The IIS University, for providing a congenial atmosphere and necessary research facilities in the University campus.

I extend my grateful thanks to Prof. Pradeep Bhatnagar, Dean, Faculty of Life Sciences, The IIS University, whose unceasing inspiration and valuable suggestions constantly encouraged me during the course of this study.

I feel immense pleasure to thank my esteemed supervisor Dr. Smita Purohit, Department of Botany, The IIS University, for her generosity, continuous attention, intellectual discussion and constructive criticism which enabled me to accomplish this task with full zeal and enthusiasm. I have had the advantage of her critical advice from her profound knowledge in the subject which she has so graciously lavished to shape up this piece of work.

It is a matter of great privilege for me to extend my sincere thanks to Prof. S. L. Kothari, former Head, Department of Botany, University of Rajasthan and former Director, Centre for Converging Technology, University of Rajasthan, for rendering necessary help, keen interest and providing precious inputs in the present study.

With great pleasure, I express my most affable and cordial thanks to Dr. Shilpi Rijhwani, Head of Department, Dr. Kalpana Agarwal and Dr. Anuja Joshi, Department of Botany, The IIS University, for their valuable suggestions and constant encouragement.

I have no words to appreciate the support and co-operation extended to me by my research colleague, Mrs. Suman Krishania, for constantly motivating me to accomplish the task whole-heartedly. Research can be strenuous work, and it was her shared sense of excitement and confidence that reassured me that it was worthwhile.

I extend my special thanks to my fellow research colleagues, Mrs. Anita Chauhan, Mrs. Kamakshi Tomar, Mrs. Gayatri Jeph, Dr. Neha Rawat, Dr. Neetu Bhaskar, Dr. Nandini Taparia, and Ms. Megha Mathur, for their sustained interest, constant help and healthy discussion to solve challenging problems.

I am highly obliged to Dr. Rohit Jain, Dr. Varsha Khurana-Kaul, Dr. Kumar Sambhav Verma, Ms. Yashmin Akhtar, Mrs. Suman Kumawat,
Mr. Shamshad Ul-Haq and Ms. Ritika Bhatt, Department of Botany, University of Rajasthan, for their support and guidance provided during histological, biochemical and molecular biology studies.

I feel paucity of words to express my deep sense of gratitude towards my parents, Mr. Binod Kumar Agrawal and Mrs. Renu Devi Agrawal whose affection, care and blessings incorporated great strength in me to combat each and every difficulty in my life. Their prayers for my joy always made me confident enough to solve every puzzle and to encounter every situation.

I am most indebted to my loving parents-in-law, Mr. Kali Charan Agrawal and Mrs. Asha Devi Agrawal, for their blessings, understanding and moral support.

This success would not have seen the light of the day without the incessant love and thoughtfulness of my beloved husband, Mr. Sumit Agrawal. I cannot thank him enough for being a constant pillar of strength and support since the time we met. His deep patience and understanding has inspired and enabled me to accomplish this task successfully.

I found no rhetorical gems from the ocean of words to express my heartfelt thanks to late Mr. Avinash Deshpande and Mrs. Anita Mathur. The successful accomplishment of the present research work deserves more than thanks to them for providing a peaceful and motivating atmosphere away from home which inspired and sustained me during the entire tenure. The moral support and care they provided never let me miss home.

I owe a huge thanks to my dear brother, Mr. Hemant Agrawal, whose innocence and modesty taught me to face every situation with serenity and integrity.

Humble acknowledgement is intended to my family members and all my friends for their well wishes and encouragement that arose positive attitude to face every problem. They constantly bestowed their shower of blessings and provided me inspiration to maintain the necessary rhythm in my work.

With humble respect I would like to give my sincere thanks to Mr. Rakesh Gour, Laboratory Assistant and Mr. Satyanarayan Vijay, Helper for providing a clean and well-maintained lab environment to work in.

The financial assistance from The IIS University, Jaipur in the form of IIS University Research Fellowship is gratefully acknowledged.
