ACKNOWLEDGEMENT

It has been a long journey to finally complete one of my dreams. Many people have involved in this journey. Without their support and guidance, it would have much more difficult to accomplish. At this time, I would like to thank each of them for their encouragement and support.

I would like to express my sincere thanks and appreciation to my Research supervisor, Dr. S, Muthu, Professor and Dean, Department of Mechanical Engineering, Dr. N.G. P. Institute of Technology, Coimbatore, for his invaluable support and guidance which help me to complete this dissertation.

I would like to acknowledge the Doctoral Committee members, Dr. S. R. Devadasan, Professor, Department of Production Engineering, PSG College of Technology - Coimbatore and Dr. M. Karthikeyan, Principal, Kurinji College of Engineering and Technology - Trichy for their timely helpful suggestions.

I also extend my thanks to Thiru. C. Muthusamy, Chairman, CMS College of Engineering, Dr. C. Nelson Kennedy Babu, Principal, CMS College of Engineering, and Dr. P. Selvagopal, Professor, Oman University, for their advice during the time of research to become a better researcher.

On the whole I would like to thank the almighty, my beloved parents and my family member and friends for their love and support given during my research study.

MUTHUKUMARAN M
