ACKNOWLEDGEMENTS

Words were discovered to express one's idea and feelings. Some feelings are such that they cannot be translated in the form of words. I find words inadequate and inappropriate to express my gratitude and thankfulness to my guide Dr. Konsam Saratchandra Singh, Associate Professor, Department of Anthropology, Manipur University, without whom, this thesis would not have been materialised. I can only say that whatever be the result, I shall always nurtured my great admiration. To quote the great 'Shakespeare', "His life is gentle, the elements so find in him, That nature might have stand up and say, Here is a man."

I am deeply indebted to Mr. Lairenjam Jugeshore Singh, Inspector General of Police, Law and Order, Government of Manipur for his kind encouragements and granting me the required facilities in carrying out the present work.

I am gratefully acknowledged to Mr. Mangi Singh, Inspector, Finger Print Expert and Dr. S. Jibon Kumar Singh for their valuable help in course of this work as and when required.
Besides, acknowledgements are also sincerely extended to my friends in Police Department and colleagues for their help in various ways at all the stages of this work.

Lastly, but not the least, I express my deep gratitude to the unfortunate victims of homicides and suicides and also persons involved in the concerned crimes, related with my work whose supreme sacrifices made me possible to carry out this work. May God brings them in a better life.
