ACKNOWLEDGEMENT

First, I owe my deepest gratitude to my supervisor Prof. Arun Kumar, Department of Earth Sciences, Manipur University, Canchipur for his continuous support guidance, inspiration and enthusiasm, without him this thesis would not exist. He was always there to listen and give advice. He showed me different ways to approach a research problem and the need to be persistent to accomplish any goal.

I express my sincere gratitude to Dr. Manichandra Sanoujam and Dr. R.K. Chingkhei for their kind help, technical discussions, encouragement and exchanging ideas and giving me valuable suggestions.

I thank all the project staffs of the Department of Earth Sciences, Manipur University for their kind co-operation and valuable assistance during the map preparation and other GIS works. I would like to acknowledge the help of Jyotirindra Nongthombam, Asst Prof. Department of English and Prof. O.P. Goel, Visiting Professor, Department of Earth Sciences, Manipur University for the suggestions to improve the manuscript. There are special mentors that I must acknowledge due to their importance in my work. It is not practical to list all of those that have contributed because then I would be reciting names of many that I never met, but whose published work inspired me.

Lastly, but not the least, I thank my family members for their moral support during the whole course of the thesis.

The financial support required for this work supported by Defence Terrain Research Laboratory, Ministry of Defence, New Delhi, Government of India is thankfully acknowledged.
