ACKNOWLEDGEMENT

I take this opportunity to express my sincere thanks and gratitude to my supervisor, Dr Arun Kumar, Professor and Head, Department of Earth Sciences, Manipur University, for his constant encouragement, support, ideas, zeal to work and also for providing me the best facility available on the research topic which leads to the successful completion of this research work. I will always admire my supervisor with an honest mind for moulding my life. In fact, it was a rewarding experience to have worked with him.

I express my deep sense of respect and gratitude to Dr T.P. Halappa Gowda, Professor and Head, Department of Environmental Engineering, SJCE, Mysore, for the technical discussions, encouragement, valuable advice and suggestions during this research work.

I am always indebted to Dr K.S. Lokesh, Assistant Professor, SJCE, Mysore for encouraging me in doing Ph.D. while I was undergoing M. Tech (Env. Enng.) at the said college. The moment was a turning point in my life. I was able to face many practical difficulties of my life because of his straightforward advice in the right direction at the right time.

I would like to thanks Dr R.A.S. Kushwaha, Associate Professor and Dr Soibam Ibotombi, Associate Professor, Department of Earth Sciences, Manipur University for encouragement, exchanging ideas and valuable suggestions. I would also like to acknowledge the help of Dr Y. Raghunathi, Assistant Professor, Department of Earth Sciences, Manipur University for his suggestions during this work.
I wish to record my deep sense of respect to Dr K. Rajen, Geo-physicist, Investigation and Planning Division, PHED, Manipur for his encouragement and timely suggestions to improve the manuscript. I will always remember him with thanks as he has shown me the path of my life at the critical time.

I extend my thanks to Dr B.B. Panda, Scientist (Agronomy), ICAR, Lamphelpat for providing me rainfall data and crop water requirement of the Greater Imphal Area.

I am quite thankful to Kh. Iboyaima Singh, Engineer Officer, Imphal Municipal Council, for helping me in the data collection of the Municipal Area, Manipur.

I am extremely thankful to concerned authorities of libraries in the IISc. Bangalore; S.J.C.E., Mysore; IMD, Pune; Institution of Engineers (India) Assam State Centre, Guwahati; and Manipur University, Canchipur for providing me the best available library facilities during this work with a great support and encouragement.

I am quite thankful to Dr R.K. Chingkhei for helping me in the analysis of land use/land cover analysis of the Greater Imphal Area through remote sensing and GIS. I am also thankful to Th. Nixon Singh for his helping hand being extended to me in the analysis of hydrological data of the study area. The help and co-operation rendered by Dr Manichandra Sanoujam, Dr Sunil Laishram and Dr Th. Dolendro in the field of computer are acknowledged with thanks. I really appreciate the immense help rendered by staffs of Earth Sciences during the course of my research work.

I am thankful to G.A. Jaichandra Sharma, Chief Engineer, PHED, Manipur, for having given me the freedom to work and for forwarding necessary documents relating to my study leave to the Secretariat, Manipur.
I will be guilty of ingratitude, if I fail to express my sincere thanks to the Secretary, PHE, Government of Manipur for allowing me in carrying out this research work for improving the present status of water supply in Manipur.

I wish to place my thanks to my younger brother, Mr. Ngangom Junior Luwang, Advocate, New Delhi, for his morale support to me during this work.

I avail this opportunity for thanking all those persons who supported me in my past life. They are great sources of inspiration to me in carrying out this work. It is because of them that I can take such a big challenge in my life for doing this research work with a good social outlook in my mind for the coming generation.

Finally, I also thank one in all who helped me directly or indirectly in carrying out my work.

Place: Imphal

Date: 2nd May, 2008
