ACKNOWLEDGEMENT

The printed pages of this thesis hold far more than the culmination of years of study. These pages also reflect the relationships with many generous and inspiring people I have met since beginning my research work. The list is long, but I cherish each contribution to my development as a fellow and scientist.

It has been an exceptional journey - one that I had always dreamt of. It all began when my mentor Dr. Bivash Pandav identified me and gave an opportunity to work with him. He groomed me and supervised my research for several years. I have been amazingly fortunate to have an advisor who gave me the freedom to explore on my own and at the same time the guidance to recover when my steps faltered. Bivash taught me how to question thoughts and express ideas. His patience and support helped me overcome many crisis situations and finish this thesis. I hope that one day I would become as good an advisor to my students as Bivash has been to me. Thanks to him, I was able to develop as the person that I am today. I am indebted to him more than he knows.

Prof. B.C. Choudhury is one of the best teachers that I have had in my life. He sets high standards for his students and he encourages and guides them to meet those standards. I am indebted to him for his continuous encouragement and guidance. I sincerely thank Nalini Ma’am for all the guidance and support from my beginning days to till date at WII.

I owe a huge debt of gratitude to Mr. Bijoy Kumar Das and Mr. Khirotd Behera for their invaluable field assistance. Bijoy taught me to row, climb 40 ft tall Heritiera fomes trees, search crocodile nests inside deep slushy and thorny mangrove swamps, walk and wade in the waist deep muck and most important of all to cook during my 3 year stay at Bhitarkanika. Thanks Bijoy for everything.

I would like to thank the Orissa Forest Department, especially Mr. S.C. Mohanty, PCCF and Chief Wildlife Warden for giving me necessary permission to work in Bhitarkanika Wildlife Sanctuary. I sincerely acknowledge all the management staff for providing me logistic support and help during field work. Mr. A.K. Jena, D.F.O was always cooperative during the study. Mr. D. K. Jena, R.F.O is sincerely thanked for providing all the necessary local support from arranging base camp to country boats.

My most earnest, acknowledgment must go to Dr. Rajah Jayapal. I am deeply grateful to him for allotting his precious time for helping me to analyse and interpret my data; the long discussions that helped me sort out the technical details of my work. His insightful comments and constructive criticisms at different stages of my research were thought-provoking and they helped me focus my ideas. I am grateful to him for holding me to a high research standard and enforcing strict validations for each research result, and thus teaching me how to do research.
I am grateful to Mr. P.R. Sinha, Director of WII for permitting me to use the institutional facilities during the study period. I am greatly indebted to Dr. V.B. Mathur, Dean FWS of WII for providing me with all the personal and professional support at the Institute and encouraging me in all my efforts. I would like to acknowledge their continued persistence in asking me to complete my thesis soon.

I earnestly appreciate help from Mr. Rajesh Thappa (System Manager, Computer and GIS cell) and computer personnel particularly, Mr. Virendra Sharma, Mr. Muthu Veerappan, Mr. Panna Lal, Dr. Manoj Aggarwal for providing necessary help during the study.

My wonderful parents deserve special mention who have given me all their love and support and let me freely do whatever I want. My Father, G. Veeraswami, who has been my role-model for hard work, persistence and personal sacrifices, he instilled in me the inspiration to set high goals and the confidence to achieve and showing me the joy of intellectual pursuit ever since I was a child. My Mother, Sagunthala Veeraswami, is the one who sincerely raised me with her caring and gently love. She emphasized the importance of education and helped me with my lessons throughout my life. Dr. G.V. Uma, G.V. Sridhar and G.V. Janarthanan, thanks for being supportive and caring siblings. All of them never once complained about how infrequently I visit, they deserve far more credit than I can ever give them.

Sangeeta Angom, my wife without her this effort would have been nothing. Words fail me to express my appreciation to her, whose dedication, love and persistent confidence in me, has taken the load off my shoulder. I owe her for being unselfishly let her intelligence, passions, and ambitions collide with mine. Therefore, I would also thank Mr. Warchief Singh Angom and Mrs. Binodkumari Angom for letting me take her hand in marriage, and accepting me as a member of the family, warmly. Without the love of Sangeeta and my son Rudraksh this thesis could not have been written. To Sangeeta and Rudraksh I owe an immeasurable debt and deep affection.

Throughout my Ten plus years in WII, I have seen many people come and go; however, I am very grateful that many of them have taken me as their friend. They have taught me how to live, love, and feel; these, in turn, become the catalyst to my desire to finish this thesis. Of course, despite all the assistance provided by Dr. Bivash Pandav and others, I alone remain responsible for the content of the following, including any errors or omissions which may unwittingly remain.
