ACKNOWLEDGEMENT

The author expresses his profound gratitude and deep sense of indebtedness to his research supervisor, Prof. P. Ramasamy, Dean Research, SSNCE, for his passionate support, eminent guidance and encouragement in carrying out the present investigation and profuse personal interest.

The author expresses his deep sense of gratitude to his teachers Dr. A.R. Ramkumar, Department of Physics, National College, Trichy, Mr.G.M. Rajkumar, Mr. M. Masimalai, for the valued guidance and support in his carrier. I am grateful to Dr. G. Bhagavannarayana, Scientist, NPL, New Delhi, Dr.C.K. Mahadevan, S.T. Hindu College, Nagercoil, Dr.U. Madhusuoodanan, Scientist, IGCAR, Kalpakkam, Prof. V.R.K. Murthy, IITM, Dr. Sunil Verma, Scientist, RRCAT, Indore, Prof. M. Palanisamy, Department of Chemistry, Dr. R. Gopalakrishnan, Ass. Professor, Dept. of Physics, Anna University, and Prof. K. Ramamurthi, Bharathidasan University for their valuable suggestions and characterization studies. I express my profound gratitude to Dr. R. Ramesh Babu, School of Physics, Bharathidasan University, Dr. M. Lenin, Dr. A. Joseph Arulprakasam, Sathyabama University, Mr. C. Ganesh Raj (IITM), Mr. S.Suresh (St.JCE), and all research scholars in my dearest research team in Centre for Crystal Growth, SSNCE for their co-operation in every moment of this work. The author is extremely thankful to faculty members of Department of Physics, SSNCE. The author is grateful to SSNCE for the award of Junior Research Fellowship. I am greatly indebted to my parents and my sister for their love, constant encouragement, patience and support.

A. SENTHIL
