Acknowledgement

At the very outset, I express my profound thanks to my supervisor Dr. Susmita Gupta, Assistant Professor, Dept. of Ecology and Environmental Science, Assam University, Silchar, for her constant supervision, guidance, support and valuable advice in each and every step of my PhD work. I express my heartiest thanks to Prof. Abhik Gupta, Dean, Dept. of Ecology and Environmental Science, Assam University, Silchar for his constant support and advice during the entire period of my work.

I express my deep gratitude to Prof. Jayashree Rout, Head, Dept. of Ecology and Environmental Science, Prof. Biman Kr. Dutta, Prof. Ashesh Kr. Das, Prof. D.C Ray, Dr. Parthankar Chowdhury, Dr. Mithra Dey, Dr. Ajit Kr. Das, Dr. Aparajita Dey, Dr. Tapati Das, Dr. Arun Jyoti Nath, Dr. Hillolijyoti Singha and Dr. Panna Deb as I have been fortunate enough to receive cogent and significant advice from all the respected teachers from the department.

I am specially thankful to University Grants Commission, New Delhi for financial support through the major research project F.No.36-25/2008(SR), for which I was the project fellow for the period of last three years. This research work was initiated as a part of the major research project funded by UGC.

I am thankful to the DST-Winter School on Insect Taxonomy, Organized by Dept. of Science and Technology Council (DST) in collaboration with Tripura University, Agartala for preliminary training on insect taxonomy; SAIF, NEHU, Shillong for kind permission to use the laboratory facilities for the analysis of trace elements; Meteorological observatory, Cachar College for rainfall data.

I wish to sincerely thank the technical experts; Dr. Shubhon Dutta Gupta, Mr. Shagnik Chowdhury, Laboratory assistants Mr. Komola Singha, Mr. Bimal, Mr. Siddhartha Sen and office staffs Mrs. Lopa Bhattacharjee, Salman Mia from Dept. of Ecology and Environmental Science. I am thankful to the staffs of departmental library, Bio Informatics Centre, Central Library and administrative building for their kind cooperation.
Special thanks are due to my lab mates, senior scholars and juniors, Ms. Hafsa Sultana Laskar, Ms. Kankana Das, Ms. Sushila Devi, Mr. Satish Ch. Sharma, Ms. Bonita Devi, Ms. Kiranbala Takhelmayum, Ms. Bijita Barman, Ms. Arpita Dalal, Ms. Dharitri Sharma, Ms. Rashmi Rekha Bhagwati and Anupama Sharma for their continuous mental support.

I acknowledge help of all of my friends, colleagues in my department who always stood by me during my research period.

I also wish to offer my sincere thanks to Mr. Samar Deb, auto driver who helped me during my field visits. I acknowledge help of all the local people and villagers I met, who provided information and guided me during field visits throughout my research period.

My special thanks are due to my husband Dr. Pulak Das. He has always been an inspiration for me during my tough times.

Last but not the least, my indebtedness are due to my parents, Mr. Pranesh Purkayastha & Mrs. Smriti Kana Purkayastha, my in-laws Mr. Gokul Chandra Das & Mrs. Rita Das, my sister-in-law Ms. Purabi Das, for their persistent encouragement and day to day help that has led me to give my Ph.D. thesis a final shape.
