ACKNOWLEDGEMENT

Thanks to Female Deity Ma Umiya for her mercy and blessing for providing me the opportunity to step in the excellent world of Wood Anatomy.

This thesis is the end of my journey in obtaining my Ph.D. I have not traveled in a vacuum in this journey. This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people including my well wishers, my friends, colleagues and various members of research institutes. I would like to thank all those people who made this thesis possible and an unforgettable experience for me. At the end of my thesis, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study.

Plant Anatomy Laboratory, Bioscience Department, was the first place in which I was educated in the alphabet of Plant Anatomy. It is always nice remembering the excellent times of lessons by plant anatomists and how the sweet experience moved me towards the study of the plant anatomy. From the bottom of my heart, I consider Plant Anatomy Laboratory of Sardar Patel University as my second home. The research work, that I have done here will definitely helpful in my future carrier.

"The dream begins with a teacher who believes in you, who tugs and pushes and leads you to the next plateau, sometimes poking you with a sharp stick called "truth" - Dan Rather.

At this moment of accomplishment, first of all I pay homage to my guide, Prof. K. S. Rao, my esteemed promoter, my cordial thanks for accepting me as a Ph.D. student, your warm encouragement, thoughtful guidance, critical comments, and correction of thesis. His kind and understanding attitude and inclination to help have been a source of encouragement for me throughout this period. This work would not have been possible without his guidance, support and motivation. Under his guidance I successfully overcame many difficulties and learned a lot.

Vinay R. Patel
I wish to thank Prof. A.V.R.L.N. Acharya, Head, B. R. Doshi School of Biosciences for providing me with the necessary facility to carry out the research work. I am also thankful to Prof. K. S. Rao, Prof. Kiran Kalia and Prof Harish Padh, Ex- Heads of the Department for their valuable support during my Ph.D. tenure.

I take this opportunity to sincerely acknowledge the University Grant Commission (UGC), Government of India, New Delhi, for providing financial assistance in the form of Junior as well as Senior Research Fellowship which buttressed me to perform my work comfortably.

I am very grateful to my loveable seniors and best friends Dr. Sushil Kajal and Dr. Prakash Patel for his valuable scientific advice and knowledge and many insightful discussions and suggestions. They are my primary resource for getting my science questions answered throughout my Ph.D. Again, I would like to thanks Dr. Sushil for his constant support when I was struggling with various anatomical instruments and staining techniques during early days of my Ph.D.

I want to express my deep thanks to Dr. Pramod for his timely support and guidance for sample preparation for SEM analysis as well as for his valuable suggestions and help during thesis writing process.

My special thanks to Prof K. C. Patel for his constant motivation and support.

I would like to thanks faculty members of B. R. Doshi School of Biosciences, especially, Prof. T. V. Ramana Rao, Dr. A. S. Reddy, Prof. J. S. S. Mohan, Prof. R. B. Subramanian, Dr. M. Nataraj, Prof. Datta Madamwar, Dr. Vasudev Thakkar, Dr. Ujjaval Trivedi, Dr. Harish Keharia, Dr. Mrs. Amita Shah, Dr. Mrs. Sujata Bhatt and Prof. Mrs. Kiran Kalia for their moral support, kind advice and encourage during my Ph.D. work.

It’s my fortune to gratefully acknowledge the support of a special person. Dr. P. Manivel, Senior Scientist, Directorate of Medicinal and Aromatic Plant Research (DMAPR), Boriavi, Anand, for his motivation and guidance.
I also have to thank the members of Plant Anatomy and Physiology Laboratory, Dr. Mrs. Preeti Jha, Mrs. Neeta Gol, Miss Soumya Menon, Mrs. Sonu Sharma, Mrs. Nilanjana Baraiya, Miss Pinal Vyas and Miss. Rudri Dave.

I am also grateful to Dr. Hitesh Patel (In-charge Microscopy Laboratory) for their help in taking photographs and non teaching staff of the department as well as University office staff who helped me in either way in completing my work.

I will forever be grateful to Dr. Satyabrata Maiti, Director, Directorate of Medicinal and Aromatic Plant Research (DMAPR), Boriavi for allowing me to use the microscopy facility. I also would like to thank Dr. Geetha, Senior scientist and Miss. Arati Kawane, Senior Research Fellow for their valuable help in microphotography at DMAPR.

I am also gratified to Prof. L. M. Manocha, Head, Department of Material Science for allowing me for using Scanning Electron Microscopy facility. I also thanks to Miss. Arpana Basak, research student, Department of Material Science for giving her valuable time for taking SEM photographs.

I would like to thank Dr. K. S. Rajput, Assistant professor, Department of Botany, School of Science, The M. S. University of Baroda, Vadodara for allowing me to use fluorescence as well as light microscopy facility available in his laboratory.

I am also thankful to research scholars and my close friends Mafat Kher and Vimal Prajapati for their constant support inside and outside the department during these years.

I am thankful to my friends Sandip Patel, Sujit Prajapati, Shyam Khandhedia, Sanjay Karan, Ali Ahmed, Miss. Minal Jani, Mrs. Hetal Movaliya, Dr. Mrs. Suchita Patel for their constant support during both the good and hard time.

I would also like to thank some people from early days of my research. Dr. J. P. Patel (Head, Department of Botany, V. P. & R. P. T. P Science college, Vallabh Vidyanagar), Dr. Bushra Jarullah, Dr. Kalpesh Isnawa, Dr. Farzin Parabia, Dr. Yogesh Mahida, Dr. Himanshu Baria and Amit Thakkar were among those who kept me going at the beginning.
I am indebted to my many colleagues for providing a stimulating and fun filled environment. Umang Bharucha, Ketan Panchal, Ankit Sudhir, Kunal Jain, Dr. Dhaval Vyas, Gopal Yadav, Bhaumik Dave, Dhananjay Patel, Ravi Patel, Dr. Digant Chapla, Avinash Narayan, Dr. Pritesh Parmar, Dr. Dhiraj Chavda, Mrs. Sunitha Mary, Miss Deval Vyas, Miss. Jigisha Vaghela, Mrs. Disha Patel, Miss. Zeenat Khan, Miss Namita, Nirav Pathak, Rajesh Jethwa, Bhavin Suthar, Miss Nehal Vadavia, Mrs. Romika Patel, Mrs. Rekha Rohit, Mrs. Devashree Patel, Ashvin Soni, Milan Kansagara and Ghanshyam Parmar for their enduring love, friendship, words of wisdom, encouragement and understanding.

My final words go to my family. I would like to pay high regards to my Mummy-Papa for their sincere encouragement and inspiration throughout my research work and lifting me uphill this phase of life. I also thankful to them for the personal sacrifices they made to push me forward to allow me to reach new levels of excellence. I owe everything to them. Shakti, my wife, has been a true and great supporter and has unconditionally loved me during my good and bad times. There are no words to convey how much I love her. My thanks go in particular to my elder brothers Dr. Mitesh and Dr. Mehul, Urvashibhabhi, Hetalbhabhi, my elder sister Vanita and my nephews Setu, Diti, Om, and Nand. They truly deserve all the glory and honour.

Besides this, I am thankful to several people who have knowingly and unknowingly helped me in the successful completion of this Ph.D. work.

(Vinay R. Patel)
