Acknowledgements

I am highly indebted to Prof Sulabha Natraj, Professor & Head, Waymade College of Education, Vallabh Vidyanagar under whose guidance I had a rare experience of working on this project. Of course this work has provided me an initiation in the world of research. It is all due to her guidance. And the result is the creation of THIS REPORT. Once again I thank my guide, friend and philosopher and the mother of Waymade College of Education who has really made ‘the Waymade’ a way through which students have been shaping their careers as teachers for the last five years.

The man whose figure has always been in front of me since I thought of this work (He might be not aware of this) is Prof. Mahendra Chotalia under whose guidance I had completed my M.Ed. dissertation. It was he who had suggested me to undertake Ph.D. Study. Again while I was fumbling about the topic and procedure of the study, he became a big helping hand. I sincerely thank Chotalia Sir who is my role model.

I am extremely grateful to Dr. Rajendrasinh Jadeja, Director, H M Patel Institute of English Training and Research, Vallabh Vidyanagar for his encouragement at the regular intervals for the completion of the study.

I am also thankful to Dr. Piyushbhai Joshi for making me clear about some points of the study.

I would like to express my heartfelt gratitude to the teachers who took tremendous interest in filling up the opinionnaires and questionnaires for this study. They were being trained as Resource Persons about the teaching of Functional English at H.M. Patel Institute of English, Training and Research, Vallabh Vidyanagar. They welcomed such study being carried out by me, motivated me to complete it and within three days, they
filled in the opinionnaires and questionnaires and returned me. At this time, I cannot forget them who saved my time and money.

Of course, I should thank Mr. H. C. Patel, the Principal, Higher Secondary Educational Complex, Science Stream (R.P.T.P.) for his encouragement for this study. He continued to encourage me to pursue this study saying every time one statement: “I want you to gain the degree as early as possible”

There was time, unfortunately while pursuing this work, when I thought I might not be able to complete the study in time and when there was some doubt about the successful completion of the work. At that time it was my brother, Dipak who continued sending me one SMS on my mobile: “People fail only when they give up”. To be sincere, I did not give up even at the stage of frustration and I did not fail. Though he is younger, he played the role of elder brother in my study.

I should not forget two people serving at the Waymade College of Education, Vallabh Vidyanagar. One is Mr. Bhavin Prajapati, an Assistant librarian, who was a big helping hand throughout this study being always eager to find out some book for me. Other person is Mr Keval Thaker, Jr. Clerk - Computer, who had willingly taken the responsibility of the formatting of the thesis and some graphical work in the report.

During these years, I sometime ignored the feelings of my wife, my son, krish and my little daughter, Pooja while being busy in this project. But they could be able to understand the importance of my study and allowed me do it when I wanted.

Last but not the least I am extremely grateful, as always, to my mother, father and the Supreme Soul for their blessings in completing this study.

Suresh J Prajapati
