ACKNOWLEDGEMENT

The satisfaction & elation that accompany the successful completion of any task would be incomplete without the mention of the people who made it possible, whose constant guidance, encouragement & motivation have crowned our effort with success.

I would like to gratefully acknowledge the enthusiastic supervision of Dr. D. Ravindran, Professor, Centre for Energy Studies, National Engineering College, during this work. With his enthusiasm, his inspiration, and his great efforts to explain things clearly and simply, he helped to make this work, a great experience for me. The dissertation work would have been impossible without his involvement. His unrelenting pursuit to see the thesis through and guide all of his students beyond graduation is very evident and much appreciated. I express my wholehearted thanks to Dr. Kn. K. S. K. Chockalingam, Director and Dr. P. Subburaj, Principal, National Engineering College, Kovilpatti for their kind support.

I express my gratitude to Dr. V. P. Raghupathy, Professor, Department of Mechanical Engineering, PESIT, and Dr. Ramesh S Sharma, Professor, Department of Mechanical Engineering, R.V. College of Engineering, Bangalore, for helping me in carrying out the experimental investigation at all levels.

I am extremely grateful to Dr. T. Elango, Principal, Dhanalakshmi Srinivasan College of Engineering, perambalur for his kind co-operation, encouragement and support.

My deepest thanks must go to my father Sri. S. Sivanraju and my mother Smt. S. Shenbagam who made my education possible. Special thanks to my wife Mrs. M. Gayathri and my daughter G.R. Vinathai for understanding, endless patience, and encouragement throughout this work.

RAJKUMAR S
