CHAPTER-I INTRODUCTION 1-21

SECTION I 1-8

1.1 Background of the study 1-3
1.2 Justification of the study 4
1.3 Statement of the problem 5
1.4 Objectives of the study 6
1.5 Hypotheses 6
1.6 Delimitations of the study 7
1.7 Limitations of the study 7
1.8 Key terms 8

SECTION II

LAND AND PEOPLE 9-21

1.9 Land 9-10
1.10 Demographic characteristics of Manipur 10-20
1.10.1 Population 10-11
1.10.2 Density of Population 12
1.10.3 Scheduled caste population 13
1.10.4 Sex Ratio 14-15
1.10.5 Child population in the age group 0-6 years 15
1.10.6 Literacy 15-16
1.10.7 Ranking of districts by literacy rate 16-17
1.11 Social and economic infrastructure rate 17-20
1.11.1 Rural electrification 17
1.11.2 Rural water supply 18
1.11.3 Urban water supply 18
1.11.4 Rural sanitation 18
1.11.5 Welfare of scheduled caste & tribes 18-19
1.11.6 Integrated Child Development Services (ICDS) 19
1.11.7 Health & Family Welfare Services 19
1.11.8 Maternal Child Health-Cum-Expanded Programme on Immunization 20
1.11.9 National Rural Health Mission (NRHM) 20

CHAPTER II REVIEW OF LITERATURE 22-45

2.1 Study abroad 22-30
2.2 Study in India 31-39

References 39-45

CHAPTER III RESEARCH DESIGN 46-56

3.1 Method 46
3.2 Population 46
3.3 Sample 46
3.4 Tools 49
3.5 Exclusion criteria 54
3.6 Presentation of data 54
3.7 Procedure of data collection 54-56
3.8 Data analysis 56

References 56
CHAPTER IV 
RESULTS AND DISCUSSION  57-95

SECTION I  
CHILD CARE PRACTICES  57-82

Objectives 1: Child care practices of the scheduled and non-scheduled caste mothers and a comparative analysis

4.1 Child environment  57-64
  4.1.1 Source of water  58
  4.1.2 Power supply  59
  4.1.3 Toilet facilities  59
  4.1.4 Parental educational level  60-61
  4.1.5 Age of mothers at marriage  61
  4.1.6 Income of mother  62
  4.1.7 Television watching  63
  4.1.8 Parental opinion on children’s watching TV  64

4.2 Feeding  65-71
  4.2.1 Breastfeeding  65
  4.2.2 Day of starting feeding  65-66
  4.2.3 Awareness about colostrums  66
  4.2.4 Breastfeeding schedule  67
  4.2.5 Burping  67-68
  4.2.6 Supplementary food  68-69
  4.2.7 Solid food  69-70
  4.2.8 Giving regular water  70-71
4.3 Toilet training 71-74
   4.3.1 Age of starting toilet training 71
   4.3.2 Completion of toilet training 72
   4.3.3 Bed wetting 73
   4.3.4 Cleansing material 73
   4.3.5 Bathing 73-74
   4.3.6 Hand washing 74
4.4 Health care 75-76
   4.4.1 Immunization 75
   4.4.2 Consultation with doctor 75
   4.4.3 Foods during recovery and lactating period 76
4.5 Demands of children 77-78
   4.5.1 Type of demand 77
   4.5.2 Fulfilment of demand 77-78
4.6 Techniques of socialization 78-80
   4.6.1 Type of technique 78
   4.6.2 Type of reward 79
   4.6.3 Responsibility of disciplining 80
4.7 Sociability training 80-81
4.8 Parental expectation 81
4.9 Responsibility for child care 82
4.10 Play 82
4.11 Education 82
SECTION-II

Comparative analysis of weight and height 83-91

Objective 2: Measurement of weight and height of the Scheduled and non-scheduled caste boys and girls in the age group 1-6 years a comparative analysis.

4.12 Weight and height of the scheduled and non-scheduled caste boys in the age group 1-6 years. 83-87

4.13 Weight and height of the scheduled and non-scheduled caste girls in the age group 1-6 years. 88-91

SECTION-III

Mental development 92-95

Objective 3: Measurement of intellectual capacity of the scheduled and non-scheduled caste children and working out the influence of age and educational level on intellectual capacity between rural and urban, scheduled and non-scheduled caste children.

4.14 Hypotheses 92-94

4.14.1 Hypothesis: Age is not a determining factor of intellectual capacity. 92

4.14.2 Hypothesis: Educational qualification is not an influencing variable of intellectual development. 93

4.14.3 Hypothesis: No significant difference in intellectual capacity between rural and urban children 93-94
4.14.4 Hypothesis: No significant difference in intellectual capacity between scheduled and non-scheduled caste children.

4.15 Overall Intellectual capacity of children 94-95

CHAPTER V SUMMARY AND CONCLUSION 96-122

Objective 1: Child Care Practices 96-102

5.1 Child’s environment 96-98
5.2 Feeding and weaning 98-99
5.3 Toilet training 99-100
5.4 Health care 100
5.5 Demands of children 100
5.6 Techniques of children 101
5.7 Sociability training 101
5.8 Parental expectation 102
5.9 Responsibility for child care 102

Objective 2: Weight and Height 102-106

5.10 Weight of boys 102-103
5.11 Height of boys 103-104
5.12 Weight of girls 104-105
5.13 Height of girls 105-106

Objective 3: Intellectual Capacity 106-119

5.14 Results 107
5.15 Main findings 107-111
5.16 Policy implication 112-115
5.17 Suggestions for further research 115-119

References 119-122
APPENDICES 123-126

Appendix-I: Sample of Interview Schedule 123-125
Appendix-II: Sample of Household Survey Schedule 126

Bibliography: 127-139
