ACKNOWLEDGEMENT

First and foremost, praises and thanks to the God, the Almighty, for his showers of blessings throughout my research work to complete the research successfully. I could never have accomplished this without the faith I have in the Almighty.

I would like to express my deep and sincere gratitude to my supervisor Dr. Annu Sharma, Assistant Professor, Department of Physics, Kurukshetra University, Kurukshetra for her invaluable guidance, patience, encouragement, enthusiasm and immense knowledge. Her dynamism, vision, sincerity and motivation have deeply inspired me. It was a great privilege and honour to work and study under her guidance. She has been a living role model to me taking up new challenges every day, tackling them with all her grit and determination and always thriving to come out victorious.

I am appreciative to Prof. M. S. Yadav, Chairman, Department of Physics, Kurukshetra University, Kurukshetra for providing me required infrastructure and essential research facilities in our department. I pay my sincere thanks to Prof. Shyam Kumar, Professor, Department of Physics, Kurukshetra University, Kurukshetra for his affectionate support, fruitful discussions, blessings and kind help during my course of work.

I offer my profound gratitude to Prof. Sanjeev Aggarwal, Professor, Department of Physics, Kurukshetra University, Kurukshetra for his motivation and encouragement in the course of my research work. His invaluable suggestions and inimitable guidance made me able to reach this stage.

I take this opportunity to thank Dr. Pawan K. Sharma for all the help rendered to me during the smooth conduct of my experiments. I am grateful for his scientific suggestions and the technical help while running my experiments. It is difficult to underststate my gratitude to Dr. Rajnish Dhiman for providing access to various laboratory facilities.
I would like to extend my sincere thanks to Prof. S. C. Mishra, Prof. R. K. Moudgil, Dr. Fakir Chand, Dr. Rajesh Kharab, Dr. Suman Mahendia, Dr. Manish Kumar and Dr. Hardev Singh for their help, cooperation and hustle during the tenure of my work.

I take this opportunity to thank all the non-teaching and technical staff of Department of Physics, Kurukshetra University for their constant help and support.

I cherish the friendship I had and take this opportunity to thank each one of them. My special thanks to my dear friend Isha Saini for her love and care like a sister and providing me homely environment during my work. Thanks for always being there and bearing with me the good and bad times during Ph.D.

It is true that this work was impossible without the cooperation and support of my co-fellows. I would like to thank Nidhi di, Suman di, Alisha, Meena, Rajiv, Ruby, Mahak, Ambika, Meetika and Monika. My heartfelt thank goes to all the research scholars in our department for maintaining a cooperative environment in the department.

I can’t imagine my current position without love and support from my family. I thank my parents for striving hard to provide a good education to me and my brother. I always fall short of words and felt impossible to describe their love and support in words. Thank you Mummy and Papa for showing faith in me and giving me liberty to choose what I desired. I am thankful to my brothers Chander and Gurmeet for the endless love and support they imparted me during last few years. Thanks to my bhabi Sonia for her love and support.

My heartiest thanks to my Mother-in-law and Sister-in-law for their kind cooperation and help at the last stages of my work.

Finally, most important thanks here go to my husband, Sandeep Sagwal. I don’t know what my life would be without you. You are like the sunshine, always giving me the feeling of warmth, hope and peace. It is wonderful to have you beside me, in the past, present and future. You always take my problems as your own, help me to overcome them and encourage me to achieve a high level. Thank you so much for your faithful love, patience and endless help.

(Jyoti Rozra)
